Admin To-Do's

- To further assist districts in recording attendance for distance learning, modifications that convert assignment data into actual attendance data have been made. See the COVID-19 Attendance Workflow for details. (SIS-136720)
- The classic Grading Window (Grading and Standards > Grading Window) will be removed with the Campus.2024 Release (June 2020). Review the [Grading Window - .2024](#) release notification for details.

Technical Information

See the [Technical Information - Release Pack Campus.2016](#) article for a list of schema changes in this release.

Academic Programs

[Academic Planning – Credit Requirements for Graduation Programs \(SIS-122530\)](#)

A warning has been added to the Credit Requirements Detail editor preventing a user from moving to a new cell or saving and exiting when either an incorrect value has been added, or a value was removed and a cell is left empty.

Article(s): [Assign Credit Requirements](#)

Path: [Program Admin](#) > [Programs](#) > [Graduation Programs](#)

[Academic Planner – Parent/Child Rule \(SIS-125967\)](#)

In cases where a Parent/Child Rule was applied to a set of courses after the child course had already been added to student Academic Plans, a duplicate of the child course was created. This has been corrected.

Ad hoc Reporting

Query Wizard Performance for Filters using Several Views (SIS-121513)

For filters that use many views for multiple calendars, performance has been improved. A new check box has been added, called Force Order. When this is marked, the logic used to generate the query orders the views used in the query.

Article(s): Filter Designer

Path: Ad hoc Reporting > Filter Designer

Filter Designer - Time Out when Using Save and Test (SIS-125649)

Reports timed out when using the Save and Test option when a filter included fields related to courses. This has been corrected.

Ad Hoc Tool Rights Update (SIS-133745)

Ad Hoc was previously not respecting field level tool rights on a shared filter for Census, Enrollment, State Reporting, and Sped fields. This issue has been resolved.

Articles: Filter Designer

Path: Ad Hoc Reporting > Filter Designer

Ad Hoc Pass-Through SQL Queries Running Before Test is Selected (SIS-135375)

Ad Hoc Pass-Through SQL Queries were incorrectly running in the background prior to a user selecting Test or initiating any run of the query itself. This bug was leading to performance issues when attempting to access and/or edit existing queries. This issue was corrected.

Attendance

[Attendance Aggregation Refresh – Schedule Supplemental Calculation \(SIS-133003\)](#)

[Enhancement]

A new field, 'Schedule Supplemental Calculation', has been added to Attendance Aggregation Preferences editor allowing districts to schedule an additional run of the attendance aggregation calculation. This does not affect the overnight attendance aggregation processing job and only attendance entered before the supplemental run will be included in the calculation.

Article(s): [Attendance Aggregation Refresh](#)

Path: [System Administration](#) > [Attendance](#) > [Attendance Aggregation Refresh](#)

Behavior

[Behavior Attendance Audit Report \(SIS-125213\)](#)

The Behavior Attendance Audit Report does NOT include behavior resolutions that start the last minute of a period or end the first minute of a period.

Calendar

[Schedule Delete Calendars \(SIS-135965\)](#) **[Enhancement]**

The ability to delete calendars was available in the Campus.2012 Release. Deletion of calendars can now be scheduled, if desired, allowing administrators to choose a date and time that works for their district.

Path: System Administration > Calendar > Delete Calendar

Campus Instruction

[Hovering to View Name of Standard \(SIS-130526\)](#)

Previously, hovering over the abbreviation of a standard in the Assignments view of the Progress Monitor did not display the full name of the standard, as it does in other areas. This has been corrected.

[Campus Instruction - Changes for Grading Window Enhancements \(SIS-132981\) \[Enhancement\]](#)

Tools in Campus Instruction related to posting grades have been updated to accommodate recent Grading Window changes, which allow the grading window to be open for some students in a section and not others. Updates have been made to the Grade Book, the Post Grades tool, and the Multi-Post Grades process.

- Grade Book
 - Rows in the Posted area of the Grade Totals section display in white for students for whom grades can be posted and grayed out for students where the grading window is closed and a hover text explanation was added.
- Post Grades
 - When posting by Task, grades cannot be entered or selected for students for whom the grading window is closed.
- Multi-Post
 - This tool has been updated to the workflow style of a wizard, with the different steps displayed across the top and improved visual design. The majority of functionality has not changed.
 - Where the list can be filtered, an Open filter has been added to filter to only students for whom the grading window is open.
 - Commenting options have been expanded, including additional fill options and the option to individualize comments by student.

Multi-Post Grades - Staff History End Date (SIS-134121)

Previously, staff with an End Date on their Section > Staff History record were unable to post grades using the Multi-Post Grades tool, even if their Access to Section had no end date. This has been corrected so that teachers can use Multi-Post Grades as long as they have access to the section.

Article(s): Multi-Post Grades

Recording Attendance for Distance Learning (SIS-136511) [Enhancement]

Campus has implemented a stop-gap measure that allows schools who have recently moved to distance learning model to record attendance. This solution allows teachers or students to record attendance through assignments.

Some of the steps in this process were updated in SIS-136720 in the [Campus.2016.1](#) Rx release pack.

To enable this process:

- Set the calendar attribute to the type of attendance taken, either individually by calendar in System Administration > Calendar > Calendar, or for all calendars in System Administration > Custom > Custom Attribute > Calendar. Options are:
 - COVID-19 Attendance by Teacher Only (available in all districts): teachers record attendance through attendance assignments.
 - COVID-19 Attendance by Student (available in Campus Learning districts only): students can mark their own attendance through attendance assignments. Do not mark this option if your district does not have a Campus Learning license.
- Open the Task Scheduler in System Administration > Preferences and enable the "COVID-19: Enable Attendance Assignments" job.

When this job is enabled, a grading task called COVID-19 Attendance is added to each course as needed when attendance would normally be taken for the course. The job is run when enabled and every morning and an Attendance assignment is added to the COVID-19 Attendance grading task if the Day is marked as Attendance. These assignments are not included in grade calculations by default.

If attendance is taken by the teacher, a teacher can mark a student as Turned In or give them any score other than 0 to record the student as present, or mark a student as Missing or give them a score of 0 or leave the score blank to record the student as absent. If the attendance is recorded by the student (Campus Learning only), a one-question quick assessment is added to each Attendance assignment, which allows students to mark themselves as present.

An update that converts this assignment data into actual attendance data is forthcoming. Infinite Campus fast-tracked the data collection part of this solution to get it in the hands of teachers as soon as possible.

See the [Attendance: COVID-19](#) page for more information and instructional videos.

Turned In Assignments Added to Flagged Assignments Report (SIS-136525) [Enhancement]

Assignments flagged as Turned In can now be included in the Flagged Assignments report. Additionally, a task selector has been added to the extract editor that allows a teacher to limit report results to the selected grading task(s) and standard(s). When tasks are selected, the report generates results from all instances of that task across all sections of the student's schedule, including sections not taught by the user.

General Ledger Updates (SIS-135895)

Various minor bug fixes and cosmetic improvements have been made to the General Ledger. The following changes were also made as part of this case.

- Users can now save Code Groups after adding or editing a rule structure.
- The Related Records area now uses tool rights. If a user does not have tool rights to a linked area, they cannot click the link to continue to that tool.

AP Invoice Remit To Address Update (SIS-135975)

Campus was creating checks without a vendor or an address. This issue happened when users assigned a purchase order to an invoice. Campus was changing the vendor location to the location used on the purchase order. If the address on the purchase order did not have a remit to address, the resulting check did not have a vendor or an address. This issue was corrected.

Grading Window (new) Exceptions (SIS-132445) [Enhancement]

The new Grading Window, released in Campus.1941, now includes the ability to open Grading Windows for specific course sections, specific students, specific grade levels, a specific student and course section, and a specific grade level and course section.

Grading Window Exceptions allow administrators to open a grading window for a particular reason without opening the window for all teachers in the school - a teacher missed the original deadline for posting grades, a student is moving out of the district and needs their latest scores posted, or

the last day of school for the senior class is a week before other students.

Montana Special Ed Updates (SIS-132288)

Several updates have been made to the Montana Special Ed area. Updates to the IEP include:

- A new print format, MT IEP, is available.
- The Service Position logic has been removed from the Special Education Services and the Related Services editors.
- Several updates have been made to the Statewide Assessments editor:
 - When N/A is selected for the Assessment dropdown, all other fields are not grayed out. When "Smarter Balanced", "ACT", "Science" or "ACCESS for ELLs" is selected for the Assessment dropdown, the Alternate checkbox becomes grayed out and all other fields are read only until the With or Without Accommodations is selected. If "Alt Science", "Multi-State Alt Assessment (MSAA)", or "Alt ACCESS for ELLs" is selected for the Assessment dropdown, the Without and With Accommodations checkboxes are grayed out and all other fields are read only until "Alternate" is selected.
 - After selecting an Assessment and Without Accommodation, the Content Area becomes available and the "Reason for Support/Accommodation", "Support/Accommodation" and "Accommodation/support specifics and notes" fields are grayed out. After selecting an Assessment and With Accommodations, the "Content Area", "Reason for Support/Accommodation", "Support/Accommodation" and "Accommodation/support specifics and notes" fields become available. After selecting an Assessment and Alternate, the Content Area, "Reason for Support/Accommodation", "Support/Accommodation" and "Accommodation/support specifics and notes" fields become available and four additional checkboxes display.
 - The following checkboxes display when Alternate is selected:
 - The student has an active IEP and receives services under the Individuals with Disabilities Education Act (IDEA).
 - The student's demonstrated cognitive abilities and adaptive behavior require substantial adjustments to the general curriculum.
 - The student's learning objectives and expected outcomes focus on functional application of skills, as illustrate in the student's annual goals and short-term objectives.
 - The student requires direct and extensive instruction to acquire, maintain, generalize and transfer new skills.
- Logic on the Districtwide Assessments editor has been updated:
 - When N/A is selected, the "Test Name" and "Accommodations" fields are read only.
 - When Without Accommodations is selected, the "Accommodations" field is read only.
- The State Reported Data editor has been removed and the fields it contained have been removed or moved to different editors:
 - The State ID field has been moved to the Student Information editor as read only.
