Rx Pack Campus.2144.9 | Rx Pack Campus.2144.8 | Rx Pack Campus.2144.7 | Rx Pack Campus.2144.6 | Rx Pack Campus.2144.5 | Rx Pack Campus.2144.4 | Rx Pack Campus.2144.3 | Rx Pack Campus.2144.2

The following corrections are included in Rx Packs for October, November, and December 2021. Rx Packs contain a small number of critical cases to fix urgent issues, with delivery in an immediate time frame (e.g., the fix cannot wait for the next four week Release Pack).

It is recommended that customers apply all subsequent Release Packs immediately following Rx Packs. Doing so will benefit both customers and Infinite Campus when it comes to supporting the patch.

Rx Packs are cumulative; each Rx pack will automatically include all previous Rx packs within that release. These cases will also be included in the Campus.2148 pack unless otherwise noted.

Below is a list of all Rx Packs for Campus.2144 and the date of availability:

- Rx Pack Campus.2144.9 - December 20, 2021
- Rx Pack Campus.2144.8 - December 10, 2021
- Rx Pack Campus.2144.7 - December 3, 2021
- Rx Pack Campus.2144.6 - November 23, 2021
- Rx Pack Campus.2144.5 - November 19, 2021
- Rx Pack Campus.2144.4 - November 11, 2021
- Rx Pack Campus.2144.3 - November 4, 2021
- Rx Pack Campus.2144.2 - October 29, 2021

See the Release Pack Campus.2144 - October 2021 article for a full list of cases included in the Campus.2144 release.

Feedback Request

With standard Campus releases, we provide schema change information such as this article. Would this information be helpful if included in this Rx article? (Schema changes in Rx cases are rare, on average one in thirty cases.)

Please respond in the comments field at the end of this article. Thanks!

Wisconsin - Ed-Fi Grades Resource Updates (SIS-147104)

The Grades resource has been updated to send the correct Student Section Associations reference when a student drops from a multi-term class, receives a grade, and then re-enrolls in the same class.

The trigger logic for the Grades resource has also been updated to send when a student is given a grade for a reportable course/section with a mapped grading task.

The Grades and Student Section Associations resources have been updated to not send if there is a School Override value populated on the enrollment that is different from the school for the enrollment record.

A resync on the Grades and Student Section Associations resources needs to be completed with this update.

Path: System Administration > Ed-Fi

Wisconsin - Ed-Fi Grades, Student Section Associations, and Staff Section Associations Updates (SIS-150417)

The Grades, Student Section Associations, and Staff Section Associations resources have been updated to no longer do a GET on Courses from the API to help improve performance when resyncs are performed or data is sent via triggers.

An error message has been added to the Ed-Fi Error Log that occurs when a resync is performed

on the Course Offerings resource for a course with an invalid state course code.

Wisconsin - Dual Enrollment Ad hoc Field (SIS-150983)

The Dual Enrollment field on the Course editor has been moved from the Custom Data Elements section to the Course Information section. With this change, the Dual Enrollment field in Ad hoc Reporting has been modified to report from the Course Information section instead of the Custom Data section, using the courseInfo.dualCreditCode in the Filter Designer (available at this location: Course > Course Information > courseInfo.dualCreditCode).

A Dual Enrollment field is also available on the Course Section editor. A separate Ad hoc Field is available for that element (available at this location: Course > Section Information > sectionInfo.dualCreditCode).

Grade Book - Assignments Outside of Enrollment (SIS-151249)

An indicator has been added to the Grade Book to indicate if an assignment is due outside of a student's enrollment in the section. In this situation, a small grey triangle displays in the bottom left corner of the score cell; if the student has a score for this assignment, the triangle is orange. These unintended scores may occur as a result of syncing scores from another LMS. Teachers may want to Exempt students from assignments outside of their enrollment, or clean up these scores in some other way prior to posting grades.

Michigan - Ed-Fi Descriptor Updates (SIS-151005)

The Attendance Event Category Descriptor in the Student School Attendance Event and Student Section Attendance Event resources has been updated to include the ed-fi.org namespace.

The Relations Descriptor in the Student Parent Associations resource has been updated to include the ed-fi.org namespace.

The inactive codes in the mappings for the Primary Nighttime Residence descriptor in the Student Education Organization Association resource have been removed. The namespace for the Primary

Nighttime Residence descriptor has also been updated.

The Flags section of the Program Type descriptors in the Programs Resource Preferences has been hidden as it is not required for Ed-Fi reporting.

Michigan - Provider License Number Override (SIS-151251)

A new field has been added to the Early Childhood tab called Provider License Number Override. The EC Provider License Number field for the School has been updated to have a maximum size of 20 characters. The Early Childhood extract has been updated to report this number if entered for the ProviderLicenseNumber, or based on current field logic if not.

Michigan - General Collection & Student Record Maintenance Attendance Calculation (SIS-151329)

The Attendance component of the General Collection and the Student Record Maintenance extracts has been updated to return to calculating Daily Attendance. Daily Attendance reports all students, regardless of Reporting Period, based on the MSDS Attendance Model selected for the grade level of their enrollment. If MSDS Attendance Model is Minute Based or null, students are considered Whole Day Present if they are absent for 50% of minutes or less, and Whole Day Absent if they are absent for more that 50% of daily minutes. If MSDS Attendance Model is Period Based, students are considered Whole Day Present if they are absent for 50% of scheduled periods or less, and Whole Day Absent if they are absent for more that 50% of scheduled periods. To report, scheduled periods and Days must be marked as Instructional and Courses must be marked as Attendance. If students exit and then re-enroll, attendance is calculated from the latest enrollment. If Start Status is 01, 04, 07, 14, 15, 16, or 17, attendance is aggregated from all enrollments from the same school and school year.

Additionally, the Attendance Start Date has been removed from the extract editors.

Localization - Arizona

Arizona - Ed-Fi Resources Enrollment Updates (SIS-150341)

The 'ZZZ - Same school calendar transfer - Do NOT report to state' value has been added to the State Start Status and State End Status fields on Enrollments.

The logic in the Student School Association resource has been updated so that if the enrollment end status is ZZZ, the end date is not sent. The Student School Association resource logic has also been updated so that if a student has multiple consecutive enrollments where the end status is ZZZ and the start status is ZZZ, only one resource is reported where the start date is the earliest start date of the enrollments (start status is something other than ZZZ) and the end date is the latest end date of the enrollments (end status is something other than ZZZ).

The end date logic in the Student Education Organization Responsibility Associations and Student Special Education Program Associations resources has been updated so that the enrollment end date used is the same end date used in the Student School Associations resource.

The end date logic for all needs and programs in the Student Needs and Student Programs Associations resources has been updated so that the enrollment end date used is the same end date used in the Student School Associations resource.

Any student switching calendars in the same school/grade needs to have their enrollments updated so the initial enrollment has a ZZZ end status and the subsequent enrollment has a ZZZ start status.
