The following corrections are included in Rx Packs for December 2021 and January 2022. Rx Packs contain a small number of critical cases to fix urgent issues, with delivery in an immediate time frame (e.g., the fix cannot wait for the next four week Release Pack).

It is recommended that customers apply all subsequent Release Packs immediately following Rx Packs. Doing so will benefit both customers and Infinite Campus when it comes to supporting the patch.

Rx Packs are cumulative; each Rx pack will automatically include all previous Rx packs within that release. These cases will also be included in the Campus.2203 pack unless otherwise noted.

Below is a list of all Rx Packs for Campus.2152 and the date of availability:

- Rx Pack Campus.2152.6 - January 20, 2022
- Rx Pack Campus.2152.5 - January 14, 2022
- Rx Pack Campus.2152.4 - January 5, 2022
- Rx Pack Campus.2152.3 - December 22, 2021
- Rx Pack Campus.2152.2 - December 20, 2021
- Rx Pack Campus.2152.1 - December 13, 2021

See the [Release Pack Campus.2152 - December 2021](#) article for a full list of cases included in the Campus.2152 release.

Feedback Request

With standard Campus releases, we provide schema change information such as [this article](#). Would this information be helpful if included in this Rx article? (Schema changes in Rx cases are rare, on average one in thirty cases.)

Please respond in the comments field at the end of this article. Thanks!

[Campus Student & Campus Parent Updates \(SIS-152426\)](#)

The following updates have been made to Campus Student and/or Campus Parent:

- Previously, the Food Service barcode did not display on the initial load of the Today screen in the mobile apps. This has been corrected.
- Previously, an error occurred if a student attempted to submit an assignment that had a flag added using a keyboard shortcut. This has been corrected.
- Performance update for Hand Raise functionality.

Campus Instruction

[Editing an Assignment \(SIS-152842\)](#)

When a user edits an assignment that is aligned to multiple sections, a message should display upon Save allowing the user to apply the change to other instances of the assignment or not. Previously, this message was not displaying for some users. This has been corrected.

Security

[Compromised Password Ad Hoc Field Added to Ad Hoc Reporting \(SIS-152791\)](#)

The Ad hoc field 'accountManagement.pwnedPassword' has been added to Ad Hoc Reporting tools. If the 'Prohibit Passwords That Have Been Previously Disclosed in a Data Breach' Account Security Preference is enabled, Infinite Campus accesses and utilizes a global database used to track passwords and accounts affected by data breaches of non-Infinite Campus systems and identifies any passwords within your system that matches passwords on this database. All passwords flagged as compromised can be pulled into Ad hoc filters and reports using this new 'pwnedPassword' field.

You can access this field via Campus Usage > Account Management > pwnedPassword.

Account Security Preferences are set via System Administration > User Security > User Preference Management > Account Security Preferences

Path: System Administration > User Security > User Preference Management > Account Security Preferences; Ad Hoc Reporting > Filter Designer

[Database Connection Handling on Login Page Causing Connection Pool Issues \(SIS-152894\)](#)

An issue with database connection handling on login.jsp was corrected to prevent potential system outages.

Scheduling

[Period Schedules Display \(SIS-152690\)](#)

Period Schedules were displaying in alphabetical order rather than in sequential order when viewing a student's schedule. This has been corrected.

[Calendar Wizard - Rolling Display Options Templates \(SIS-152483\)](#)

Previously, options were added to the Calendar Wizard that allowed users to roll the Display Options templates and other Portal settings with the calendar. However, these options were not added to the copy/append feature of the Calendar Wizard. This tool has been updated to remove the Portal Display Options Template Assignment from the Calendar Wizard and automatically roll the template assignment when a new calendar is created via the Roll Forward Wizard. Additionally, the Portal Calendar Settings and Portal Term Settings options have been added to the copy/append feature in the Calendar Wizard for use after the initial roll.
