

Scanning Release Notes (2019)

Last Modified on 10/22/2022 9:29 am CDT

The Scanning toolset is a custom tool and is only available to districts who purchase these tools. The Scanning toolset is part of the [Campus Workflow Suite](#).

Release notes provide the applicable personnel the ability to review enhancements, modifications and corrections included in a release pack prior to accepting an update. It is advised that users review the release notes carefully and alert appropriate district staff to changes in the product.

Scanning Release Notes describe all changes included within the release pack which may impact users who use the Scanning tools as add-on functionality to their existing student information system.

Questions or concerns regarding an update should be directed to Campus Support.

See the [Scanning Product Documentation](#) for more information.

The following Release Notes are available:

- [Scanning Version 1.9.5 \(12/19/2019\)](#)
- [Scanning Version 1.9.4 \(12/10/2019\)](#)
- [Scanning Version 1.9.3 \(11/26/2019\)](#)
- [Scanning Version 1.8.0 and 1.8.1 \(09/23/2019\)](#)
- [Scanning Version 1.7.2 \(09/10/2019\)](#)
- [Scanning Version 1.7.1 \(09/06/2019\)](#)
- [Scanning Version 1.7.0 \(09/06/2019\)](#)
- [Scanning Version 1.6.0 \(08/27/2019\)](#)
- [Scanning Version 1.5.0 \(08/09/2019\)](#)
- [Scanning Version 1.4.0 \(07/25/2019\)](#)
- [Scanning Version 1.3.1 \(07/18/2019\)](#)
- [Scanning Version 1.3.0 \(07/12/2019\)](#)
- [Scanning Version 1.2.0 \(07/01/2019\)](#)
- [Scanning Version 1.1.0 \(06/14/2019\)](#)

Scanning Version 1.9.5 (12/19/2019)

Attendance Calculation Update

- An issue with attendance block calculations for students with multiple sections scheduled for a single period has been resolved. (CDP-900)

Absence Request (Campus Parent)

Campus Parent > More > Absence Request

- Absence request times are now limited to 6 am - 6 pm. (CDP-797)

Scanning Version 1.9.4 (12/10/2019)

Tardy Scanning

Attendance > Scanning > Tardy

- Previously, if a student is marked absent for a period of time during the school day and scans back in a later period, the Tardy Scanner was marking the student absent for present periods before the scheduled absence, even though the UI showed a present. The Tardy Scanner has been updated to properly write what is displayed in the UI. (CDP-897)

Scanning Version 1.9.3 (11/26/2019)

Health Office Scanner

Health > Health Office Scanner

- The Launch w/ Camera option has been added to the Health Office Scanner tool to allow users to scan in student IDs using a webcam. (CDP-501)

Tardy Scanning

Attendance > Scanning > Tardy

Several updates have been made to the functionality of the Tardy scanning tool.

- Instead of displaying a grid of the student's past attendance history when they scan in, the Tardy scanner now displays a grid of the student's schedule for the day. This includes:
 - A blank line for previous periods if the student was considered present.
 - Any attendance records that may have been assigned to them today.
 - A label of "No attendance taken" if the class for the period does not take attendance or the student does not have class during the current period.
 - A check in the Override box for the current period or class they are supposed to be in as well as any period that already has an absence record that shares a code with a record that is in the past.
 - Any period with the Override checkbox marked will be updated. Past selected periods will be assigned a single code depending on the resolution strategy and future selected periods will have any codes removed. Only selected periods will be updated.
- The Resolution Strategy field has been added and displays when there is a single absence record or multiple absent records with the same absent code. Users can use the existing code or override the Excuse from the dropdown. If no existing attendance records or multiple different coded records exist, the Resolution Strategy does not display and the only option is to pick an Excuse code from the dropdown. (CDP-614)

Bug Fix

- Previously, if a student is marked as Tardy for a class and then the student scans in to the Nurse, Counselor, or a Custom Scanning location, the student would be marked Present for the class. This logic has been updated to not overwrite a Tardy. (CDP-640)

Custom Scanner Tools

Attendance > Scanning > Custom Scanning Tools

- An option has been added to configure custom scanners with a confirm page that displays the students picture, name and grade. (CDP-667)

Scan History Report

Attendance > Reports > Scan History

- A new report, Scan History, has been added to generate a view of custom scanning data for a given location over a period of time. (CDP-668)

Custom Scanners

System Administration > Scanning > Custom Scanners

- Custom Scanners can now be configured to print hall passes. (CDP-719)

Bug Fix

- All scanning locations now prevent students from scanning the same student number within three seconds of the initial scan. A warning displays indicating the duplicate scan was ignored. (CDP-774)

Absence Requests (Campus Parent)

Campus Parent > More > Absence Request

- Absence Requests cannot be made for days outside the calendar term dates. (CDP-789)

Classroom Kiosk

Attendance > Scanning > Classroom Kiosk

- The Classroom Kiosk now works with multi-period sections. (CDP-790)

Teacher Attendance

Attendance > Scanning > Teacher Attendance

- Previously, the teacher was able to have a higher tardy threshold than the Calendar absence threshold. The teacher attendance tool has been updated to prevent the teacher from exceeding the Calendar absence threshold. (CDP-793)

Absence Request Processing

Attendance > Absence Request Processing

- If a parent enters an Absence Request with the Absence Request tool and that excuse's code matches an existing attendance excuse code, the Absence Request Processing tool

automatically populates the Excuse field. (CDP-825)

Absence Request Processing, Hall Monitor

Attendance > Absence Request Processing; Attendance > Scanning > Hall Monitor Scanning

- An issue with the Attendance grid displaying duplicate records has been resolved. (CDP-827)

Custom Scanning Tools

Attendance > Scanning > Custom Scanning Tools

- When students scan in to a non-kiosk custom scanning location, their picture now displays. (CDP-845)

Scanning Version 1.8.0 and 1.8.1 (09/23/2019)

This version of the Scanning toolset is compatible with the Campus.1925 version.

Added

Classroom Attendance

- Reduced delay until section gets processed for teacher attendance (CDP-752)

Custom Scanners

- Updated data-tab header to show name of custom scanner. (CDP-759)
- Implemented feedback component. (CDP-489)

Tardy, Hall Monitor

- Moved printer button to right side of action bar. (CDP-737)

Tardy Scanning

- Tardy scanning now updates previous period if time is between periods (CDP-764)

Fixed

Classroom Attendance

- Prevent use if no config exists. (CDP-744)
- Prevent use if no config exists (CDP-744)

Counseling

- Fixed calendar validation error with counseling kiosk (CDP-762)

Custom Scanners

- Data screen not displaying Date and Times correctly. (CDP-743)

Updates

- Updated min version for AQL query

Scanning Version 1.7.2 (09/10/2019)

This version of the Scanning toolset is compatible with the Campus.1925 version.

Custom Scanners

- An issue with the non-kiosk version of the Scanning tools has been resolved. (CDP-733)

Absence Requests

- Character limit of 255 added to comment field on Absence Requests (CDP-731)

Teacher Attendance

- Account for tardy unknown check-in(s) created via tardy check-in. (CDP-662)

Scanning Version 1.7.1 (09/06/2019)

This version of the Scanning toolset is compatible with the Campus.1925 version.

Bug Fix

- Now prevent the writing of zeroes to the roomID field (CDP-728)

Scanning Version 1.7.0 (09/06/2019)

This version of the Scanning toolset is compatible with the Campus.1925 version.

Bug Fixes

- Addressed potential issue with custom scanning locations (CDP-666)

- Absence request processing > number of characters for comments (CDP-708)
- Permission error when launching custom scanner without admin tool rights (CDP-709)
- Absence request push notification states all day vs time requested (CDP-724)

Enhancements

- Absence request processed status change (CDP-615)
- Set up custom data tab to use pagination/filtering (CDP-661)
- Added qualifier for views we will support for customers (CDP-703)

Scanning Version 1.6.0 (08/27/2019)

This version of the Scanning toolset is compatible with the Campus.1925 version.

Added

Absence Requests

- Added radio button with absence request type instead of all day checkbox (CDP-583)

Fixed

Custom Scanner Tools

- Enforced calendar selection on custom scanner tools (CDP-687)

Hall Passes

- Removed student number from printed hall passes (CDP-689)

Kiosk User

- Removed requirement for scanningKioskUser to have calendar rights (CDP-692)

Scanning Version 1.5.0 (08/09/2019)

This version of the Scanning toolset is compatible with the Campus.1925 version.

Added

Custom Scanner Tools

- Added room number to custom data tool grid if the tool collects it (CDP-660)

Kiosk

- Added kiosk mode to Custom Scanning. (CDP-475)

Fixed

Absence Requests

- Fixed issue causing errors when parents view request list (CDP-653)

Comments

- Prevent entering of comments that will be truncated in hall monitor and tardy (CDP-654)

Scanner Settings

- Fixed error when saving scanner settings for a new calendar (CDP-669)

Tardy

- Made tardy scanner check enrollment start and end dates for isStudent check (CDP-655)

Scanning Version 1.4.0 (07/25/2019)

This version of the Scanning toolset is compatible with the Campus.1925 version.

Added

Attendance

- Added options for nurse, counseling and custom scanners to write attendance records (CDP-590)

Feedback component

- Added feedback component (CDP-489)

Printing

- Added printing to Nurse and Counseling Modules (CDP-320)

Scanning Version 1.3.1 (07/18/2019)

This version of the Scanning toolset is compatible with the Campus.1925 version.

Fixed

Absence Requests

- Updated absence requests to better account for multiple calendars and invalid (CDP-611)
- Updated elements to 8 and angular to 7 to fix nav wrapper issue

Scanning Version 1.3.0 (07/12/2019)

This version of the Scanning toolset is compatible with the Campus.1925 version.

Added

Barcode Report

- Added report to allow the printing of student barcodes (CDP-566)

Custom Scanners

- Added capability for Custom Scanners to select a room (CDP-449)

Hall Monitor

- Finished splitting hall monitor from tardy scanner (CDP-602)

Fixed

Absence Requests

- Now allow staff logging into Campus Parent to use the absence request tool
- Fixed performance issue with absence request loading of students

Scanning Version 1.2.0 (07/01/2019)

Fixed

- Campus Dependency: updated scanning package to work properly with Campus.1925

Scanning Version 1.1.0 (06/14/2019)

Added

- The Absence Request module has been added (CDP-383)
- Articles: Absence Request Processing; Absence Request Preferences; Absence Request

(Campus Parent)

Schema Views

- Added views to scanning schema for customer/partner access (CDP-529)

Fixed

- Scanning Tool Rights properly account for all calendars read only tool right (CDP-521)
-
-
