Generating the Assignment Standards Report

PATH: *Instruction > Reports > Assignment Standards*

The Assignment Standards report provides a list of standards associated with assignments for the selected Section. To be included in the report, standards must first be aligned to a [category](#) and then an [assignment](#) in the Scoring Alignment section.

The screenshot shows the 'Assignment Standards' report editor interface. It includes an 'Instructions' section, a 'Report Options' section with a 'Select Section' dropdown (set to '1) 3600-4 AP Literature'), a 'Select Standards' list with three items (RL-9-10.P, RL-9-10.1, and RL-9-10.2), 'Report Type' radio buttons (selected: 'List Standards associated with each Assignment'), 'Other Options' checkboxes (unchecked: 'Only Display Power Standards', 'Display Full Standard/Description'), and 'Select Terms' with two date range filters. At the bottom are 'Generate PDF' and 'Close' buttons.

Generating the Assignment Standards Report

1. Select a **Section** to load the list of available standards and additional report options.
2. Select the **Standard(s)** whose associations you would like to review. Multiple standards can be selected.
3. Select which **Report Type** you'd like to generate. Options are:
 - List Standards associated with each Assignment - reports assignments with their aligned standards.
 - List Assignments associated with each Standard - reports assignments grouped by standard.
 - List Standards not associated with Assignments - reports standards with no alignments.
4. Mark the **Only Display Power Standards** checkbox to limit the standards reported.
5. Mark the **Display Full Standard/Description** checkbox to include full standard information, rather than just the name.
6. Select the **Terms** to review. Filters results based on the Due Dates of the assignments.
7. Click **Generate PDF** to view the report in PDF format or click the arrow button next to

Generate to select a different format.
