The BIE Section 504 tool records the academic accommodations a student in a 504 Program is receiving to enhance learning functions specific to their needs. Students participating in a 504 Program must be reevaluated every three years and may only be allowed in one 504 program at a time. A history of prior 504 Program participation is tracked by program start and end dates and will print in the Summary Report.

See the core Section 504 article for additional information.

This tool is only available to BIE District Edition and NASIS State Edition users.
