The Migrant tool captures information for students whose parents/guardians move frequently in an effort to find work or better living conditions. The Federal Migrant Program provides support for these students to be successful in their education.

See the core [Migrant](#) article for information on necessary tool rights, available Ad hoc fields, and guidance on adding and printing Migrant records.

The screenshot displays the 'Migrant Editor' interface. At the top, there is a navigation bar with a menu icon, a search icon, and the 'Infinite Campus' logo. Below this, the student's profile is shown with a placeholder icon, the name 'Migrant', and a star icon. The student's details include 'Student, Cody', 'Grade: 04', '#123456789', and 'DOB: 08/17/12'. There are also tags for 'Medical', 'LEP', and 'Group 2'. A toolbar contains buttons for 'New', 'Save', 'Delete', 'Print', and 'Documents'. The main area is divided into two sections: 'Migrant Editor' and 'Student Migrant Detail'. The 'Migrant Editor' section contains a table with the following data:

MSIX ID	Arrival Date	Expiration Date	Owner
123456	01/12/2022		Butte School District #1

The 'Student Migrant Detail' section contains various input fields and dropdown menus:

- *MSIX ID:** 123456
- Last Qualifying Arrival Date:** 01/12/2022
- From State:** CA: California
- Migrant COE Status Indicator:** Y: Yes, Approved
- Services Start Date:** 09/01/2021
- Priority for Service (PFS):**
- Eligibility Expiration Date:** [empty]
- To State:** MT: Montana
- Last Qualifying Move Date:** [empty]
- Services End Date:** [empty]

At the bottom of the 'Student Migrant Detail' section, there is a note: '- Modified By: Administrator, System 01/19/2022 08:12 AM'. Below this is the 'State Reporting Fields' section, which includes a 'Regional Code' field with the value '123' and a 'District Defined Elements' field.

Publish State Migrant Records

Migrant records created in the Montana State Edition can be published down to DIS-linked districts. The Owner column on the Migrant editor lists the District that created the record.

Note the following:

- Users must have statewide access to publish student records.
- There must be at least one state-owned record for the student in order for the Publish State Migrant Records icon to display.
- Only state-owned records can be published.
- For State linked customers, the Owner column on both the State and District editions displays the district name when the record is a district-owned record and 'State' when the record is state-owned.
- Users must have publish rights in order to publish records.
- State-owned records are read-only at the district-level. Any changes made to district-owned records in the State Edition are overwritten upon sync.
- Overlapping records are allowed.
- Custom tools and district-defined elements are not synced between state and district.

Migrant Publishing Logic

The following describes the logic used when publishing Migrant records from District to State and from State to District.

State Edition to DIS-linked District Editions

When data is published from the State Edition to DIS-linked District Editions, logic compares migrant data in the State Edition to the migrant data in the District Edition:

- Only State-owned Migrant records are published down to districts.
- When the Migrant record being published does not exist at the district, the Migrant record is created at the district.
- When the Migrant record being published exists at the district, data changes made at the

State level are updated on the district record.

- When the Migrant record being published exists at the district but no changes exist between the state and district record(s), no update is made.
- When the Migrant record being published exists at the district but the record was deleted in the State Edition, the record is deleted at the district.

District Edition to State Edition

When data is synced from a DIS-linked District Edition to the State Edition, logic compares migrant data from the District Edition to migrant data in the State Edition:

- Only district-owned Migrant records are synced to the State Edition.
- When the Migrant record being synced does not exist in the State Edition, the record is created at the State Edition.
- When the Migrant record exists in the State Edition and changes exist in the district record, the State Edition record is updated with these changes.
- When the Migrant record exists at the State Edition but no changes exist between the district and State Edition record(s), no update is made.
- When the Migrant record exists at the State Edition but the record was deleted at the district, the record is deleted in the State Edition.
