**Classic View:** Student Information > Enrollments

**Search Terms:** Enrollment

The Enrollment tool displays all occurrences of a student’s enrollment in the district. Because this is an historical view, this list could be long.

By default, enrollments are first sorted by grade level and sorted by enrollment start date second. To reorder the list of enrollments, click the blue headers in the Enrollments Editor list. The list of enrollments can be sorted by Grade, Calendar, Start Date or End Date.

## General Enrollment Information

**Classic View:** Student Information > General > Enrollments > General Enrollment Information

**Search Terms:** Enrollments

Under General Enrollment Information, both the *Start* and *End Status* fields are unique to the state of Texas. Texas reporting also relies heavily on *Service Type* when populating reports. These fields are further described below. All other fields in General Enrollment Information do not require unique, state-specific data. However, many of these fields are required and data entry in these fields is necessary. For more information on these fields, see the [Enrollments](#) page.

## Start Status and Start Date

Start Status indicates the reason for beginning the student enrollment, whether entering the school or district or continuing on from another grade. When creating an enrollment for a student, students must have a Start Date and a Start Status. An enrollment cannot be saved without an entry in these fields.

In Texas, the Start Status field is not used, or recognized, in state reporting. Please be aware that a selection made in this field does NOT affect state reporting in any way.

## End Status and End Date

The End Status indicates the reason a prior year student in grade 7-12 has not enrolled in the district during the current school year. All students with an end-dated enrollment must also have an End Status assigned to the end-dated enrollment. Users are not allowed to save an end-dated enrollment without an assigned End Status. However, this condition does not apply if the **No Show** checkbox is marked. If the No Show checkbox is marked, you can enter an End Status without an End Date.

## No Show

A no show student is defined as a student who is enrolled in the school but never attends class and does not officially withdraw from the school. These enrollment records are ended after a certain number of school days, depending on district and/or state policy.

▶ [Click here to expand...](#)

## Withdrawal Date

The Withdrawal Date field is used to enter the official date of the student's formal withdrawal from the school. This field should only be filled in if the student *formally* withdraws from the school.

▶ [Click here to expand...](#)

## Service Type

The Service Type is used to indicate the type of enrollment and the intended service the student receives. Service Types include: (P) Primary, (S) Partial, and (N) Special Ed Services.

## State Reporting Fields

**Classic View:** *Student Information > General > Enrollments > State Reporting Fields*

**Search Terms:** Enrollments

Data entries made in the State Reporting Fields section of the Enrollments tab are unique to the state of Texas and may directly affect the way students are reported to the state department of education.

Updates to State Reporting fields will overwrite previously entered data. To preserve this historical information, create a new Enrollment record when changes are needed. Deleting an Enrollment record is NOT recommended.
