[General Enrollment Information](#) | [State Reporting Fields](#) | [Special Education Fields](#)

PATH: *Student Information > General > Enrollments*

The Enrollments tool displays all current and historical occurrences of a student's enrollment in a district.

By default, enrollment records are listed first by grade level then by enrollment start date. To reorder the list of enrollments, click the blue hyper-linked headers in the Enrollments Editor list. The list of enrollments can be sorted by Grade, Calendar, Start Date or End Date.

See the core [Enrollments](#) article for information on necessary tool rights, available Ad hoc fields, and guidance on adding and printing Enrollment records.

Field	Description
Calendar	Lists the name of the school and school year into which the student is enrolled.
Schedule	Displays the schedule structure of the calendar into which the student is enrolled.
Grade	Indicates the grade level of the enrollment record. Grade levels should be mapped to state grade levels for proper reporting.
Class Rank Exclude	Indicates this enrollment record is not included in class rank calculations. This is often selected for foreign exchange students or special education students.
External LMS Exclude	If a district is sharing Campus data with an external learning management system, this checkbox can be used to exclude the enrollment record from being shared.
Start Date	Lists the first day of instruction for this enrollment record. When a start date is changed on an enrollment record, a warning displays indicating that any previously entered attendance that may have occurred prior to the new start date is not deleted, unless the student's start date in course sections is also adjusted. If the student's enrollment already has an end date (or where an end date is entered when the start date is adjusted), attendance that is outside of the start/end dates will be deleted.

Field	Description
End Date	<p>Lists the last day of instruction for this enrollment record.</p> <p>When an enrollment is ended and there are no other enrollments for the student, the student's schedule is also ended.</p> <p>If the student's enrollment already has an end date (or where an end date is entered when the start date is adjusted), attendance that is outside of the start/end dates will be deleted.</p> <p>An Enrollment record is considered active through midnight on the entered end date. For example, if an enrollment is ended for a staff person as of September 19, it is considered active until midnight on September 19. At 12:01am on September 20, the enrollment record is no longer active.</p>
End Action	Indicates the action of promoting, retaining or demoting a student to the next, same, or previous grade level for the next school year.
Service Type	<p>Indicates the type of enrollment and the intended service the student receives. Service types are Primary, Partial (Supplemental) or Special Education unless localized for a specific state.</p> <p>If a student has multiple concurrent enrollments (for example, an 8th grade student enrolled in the Middle School who is taking High School classes for part of the time), the Middle School enrollment would be marked as Primary and the High School enrollment would be marked as Partial.</p>
Start Status	Start Status indicates the reason a student began enrollment, whether entering the school or district or advancing from another grade.
End Status	End Status indicates the reason a student ended an enrollment, such as leaving the school or moving to another grade.
Start Comments	Displays any comments about the start of the enrollment - who entered the enrollment, verified information, etc.
End Comments	Displays any comments about the end of the enrollment.
CRDC School of Accountability	Defines which school the student should report under for the CRDC results, regardless of the school in which their enrollment is aligned.
Future Enrollment	
The Future Enrollment editor provides information regarding the student's plan for the next school year (i.e., elementary to middle and middle to high). This should only be used by districts that have multiple school sites for a given grade level.	
Next Calendar	The calendar the student will be enrolled in next year.
Next Schedule Structure	The schedule structure the student will be enrolled in next year.
Next Grade	The grade level the student will be enrolled in next year.
