

Programs (Program Participation)

Last Modified on 10/22/2022 9:32 am CDT

[Program Participation Detail Editor](#) | [Program Participation Summary](#) | [Assign Student to a Program](#) | [Edit and Delete Student Program Assignments](#) | [Print Student Program Assignments](#)

Classic View: [Student Information](#) > [Program Participation](#) > [Programs](#)

Search Terms: [Programs](#)

The Programs tool lists the programs in which the student is involved. This only includes [Programs](#) created in the [Program Admin](#) toolset, and does not include [Flags](#) assigned to the student (which are assigned on the student's [Flags](#) tab).

Student can only be assigned to Program Sessions that are active within the date range of the currently selected calendar (in the Campus toolbar). These are Program Sessions that have a Start Date on or before the Start Date of the selected calendar, and/or Program Sessions that have an End Date that is bank (null), within, or after the End Date of the selected calendar.

The screenshot shows the 'Programs' tool interface for a student named Dylan. The top navigation bar includes the Infinite Campus logo, a search bar, and the school name '19-20 Harrison High'. The main header displays 'Programs' with a star icon, the student's name 'Student, Dylan', and their details: 'Grade: 11 #1111 DOB: 09/15/02'. Below the header, there are action buttons for 'Save', 'Delete', 'New', and 'Print'. The main content area is divided into two sections: 'Program Participation Editor' and 'Program Participation Detail'. The 'Program Participation Editor' section contains a table with the following data:

Program	Session	Start Date	End Date	Status
After School Group 11	n/a	12/02/2019		

The 'Program Participation Detail' section includes a dropdown menu for the program (currently set to 'After School Group 11'), a date picker for the start date (12/02/2019), and fields for 'End Date', 'Eligibility Start Date', and 'Eligibility End Date'. There are also text areas for 'Participation Details' and 'Description', and a dropdown for 'Exit Reason'. At the bottom, a 'Summary' section provides key information:

Program Information	
Program Name:	After School Group 11
Program Code:

Program Category:	
State Reported:	No

Student Program Assignment

Student Programs are created in the [Program Admin](#) toolset.

There are several areas in Campus that deal with Programs. This Program Participation tool is used for tracking a student's participation in school clubs, intramural sports, community education participation, etc. See the following areas for other program areas.

- [Flags and Student Flags](#)
- [Graduation Programs and Student Graduation Programs](#)
- [Career Technical Education Programs and Student CTE Programs](#)

Program Participation Detail Editor

Field	Description
Program <i>Required</i>	Indicates the name of the program being assigned to the student. These programs are created in the Programs tool. Active programs and inactive programs are available for selection (inactive programs display in gray text). More than one program can be assigned to a student at one time (unlike Graduation Programs).
Program Session <i>Required</i>	Indicates the session of the program to which the student is assigned. This field only displays when the selected Program contains a Program Session . Sessions provide a date range of participation (like an after school sports program for the fall or a community education program).
Start Date <i>Required</i>	Indicates the date the student was first involved in the program. Dates are entered in <i>mmddyy</i> format or can be entered by using the calendar icon.
End Date	Indicates the date the student stopped participation in the program. Dates are entered in <i>mmddyy</i> format or can be entered by using the calendar icon.
Eligibility Start Date	Indicates the date the student was eligible for the program. Dates are entered in <i>mmddyy</i> format or can be entered by using the calendar icon.
Eligibility End Date	Indicates the date the student was no longer eligible for the program. Dates are entered in <i>mmddyy</i> format or can be entered by using the calendar icon.
Participation Details	Provides information on the student's involvement in the program.
Description	Provides further information on the student's involvement in the program.
Exit Reason	Indicates the reason the student stopped participation in the program. Options for this field need to be created in the Attribute/Dictionary (ProgramParticipation > Exit Reason).
Status	Indicates the student's status in the program. This field only displays when the selected Program contains a Program Session. Options for this field need to be created in the Attribute/Dictionary (ProgramParticipation > Status).

Program Participation Summary

The Summary section of the Editor is a read-only view of the selected program. It lists the program, any associated sessions, the assigned program category, staff leading the program session and participation dates. Information displays as soon as a Program is selected, and updates as more information is selected.

All of these fields are populated when the Program and the Program Session are created.

Student Program Participation - Summary Details

Program Sessions include a Max Participant field, indicating the number of participant that session can have. This is not an enforced value, but rather a recommendation. When a student is added to a program session that meets this entered value, a pop-up message displays indicating such. The student can still be added to the session, but know that enrollment has exceeded this recommended value.

Assign Student to a Program

Follow these procedures for adding a program to one student. Use the [Batch Assignment Tool](#) to assign multiple students to the same program.

1. Click the **New** icon. A **Program Participation Detail** editor displays.
2. Select the appropriate **Program** from the dropdown list.
3. If applicable, select a **Program Session** from the dropdown list.
4. Enter the **Start Date**.
5. Enter information on the **Participation Details** and the Description of the program.
6. Click the **Save** icon when finished.

The student's start date in a program session must be on or after the program session start date. The student's end date must be on or before the program session end date.

For example, a program session has a start date of October 1 and an end date of November 25. The student must be assigned start and end dates for that program session within those dates. A start date for the student in the program session of September 30 cannot be entered, nor can an end date of December 1.

The same date logic applies to the Eligibility Start and End Dates.

Edit and Delete Student Program Assignments

To modify details of the student's assigned program, select the Program from the Program Participation Editor and make the necessary changes. If a program start date was entered incorrectly, editing the program assignment is fine. When a student has participated for even one day but has decided to no longer continue, edit the program and enter appropriate end dates.

If the assigned program was incorrect, it is best to delete the program (click the **Delete** icon) and assign the correct program. This completely removes any record of the student being involved in the Program.

Print Student Program Assignments

The Print icon generates a Programs Participation Detail Report (in PDF format) that lists the programs assigned to the student. Active programs and active programs with sessions display first, then inactive programs and inactive programs with sessions. Programs that have a future end date are considered active (until the date has passed).

Programs Participation Detail Report

Name: Isabel Student Grade: 10

Active Programs

Program Name: National Honors Society	Program Category: Not Applicable
Start Date: 09/01/2015	Exit Reason: Not Applicable
