In order for a custom tab to display in the Program Participation area, it must be assigned to display in the **Custom Programs** Person Tabset. Follow the instructions provided for creating a [Custom Tab](#). Modify existing custom tabs or create new custom tabs that will display in the Program Participation area.

If moving an existing custom tab from one Person Tabset to another Person Tabset, you may need to log out after making the change and log back in before the tab will appear in the new location.

When there are no custom programs, a message indicates such.
