Teacher-Scored Assessment

Setup of a Teacher-Scored Assessment

Teacher-scored Assessments are only allowed to be created for district tests. Teacher-scored tests cannot be done for state or national tests.

Before following these steps, verify an appropriate test structure (Parent, Child 1, Grandchild 1,

etc.) has been created.

These steps must be followed for each parent, child and/or grandchild tests that are to be scored by teacher.

1. Select the test that should be scored by teachers.
2. Enter the **Start Date** and **End Date**, indicating the first and last day on which the assessment can be graded.
3. Verify that the test is marked as a district test (*i.e.*, the **District Test** radio button is marked).
4. Mark the **Teacher-Scored** checkbox.
5. Mark the following score fields:
 - **Raw Score**
 - **Result**

You may select Scale Score (if the teacher will manually enter the scale score) but please be aware, no Result is calculated.

6. Click the **Save** button.

Additional Steps

After the Teacher-Scored Assessment has been created, the assessment must be aligned with the course using the Course Assessments tool. In addition, the teacher will grade the test as a Grading Task when appropriate and the score can be viewed on the student's [Assessment](#) tab.
