The Enrollment Loss Report provides a list of students who are no longer enrolled in the selected school as of the entered date.

The screenshot displays the 'Enrollment Loss Report' configuration page in the Infinite Campus system. At the top, there is a green navigation bar with the Infinite Campus logo and a search icon. Below this, the page title 'Enrollment Loss Report' is shown with a star icon, and a breadcrumb trail reads 'Student Information > Reports > Enrollment Loss Report'. A button labeled 'About This Report' is located in the top right corner. The main content area is divided into two sections: 'Set Up' and 'Output Options'. In the 'Set Up' section, the 'Effective Date' is set to '03/02/2022' with a calendar icon. In the 'Output Options' section, the 'Report Format' is set to 'PDF'. At the bottom left, there is a blue 'Generate' button, and at the bottom right, there is a 'Feedback' button with a speech bubble icon. The page is titled 'Enrollment Loss Report' at the bottom center.

There may be situations where a student is currently enrolled in the school but does not have an enrollment in the same school for next year, such as:

- The student graduates to the next school level (not considered a loss for this report)
- The student is not returning to the district in the next year (no enrollment anywhere next year)
- The student has applied and been projected to be enrolled in a program in another school (magnet program)
- An override of some sort has been manually created and the student is manually enrolled in a school other than the current one (manual enrollment)
- The student has moved and has been projected to be enrolled in a new school based on new school boundaries (moved)

Students who are not assigned a household address are not included in the report.

Students who have an Enrollment Grade Level Sequence of zero report at the end of the report. These grade levels might be preschoolers, 5th year seniors, adult education students, etc. These enrollments are not included in the Enrollment Roll Forward process.
