Unlike the [Service Provider Detail Report](#), the Service Provider Summary Report does not list student names. It just lists the type of service being provided and the service information.

Report Logic

Locked plans are referenced to pull service information and service providers. Service information prints for non-locked plans, reporting the same information except for the name of the Service Provider. A student is listed once per service per provider. This means the student's name may be

listed more than one time for each service provider.
