

Special Ed Evaluators

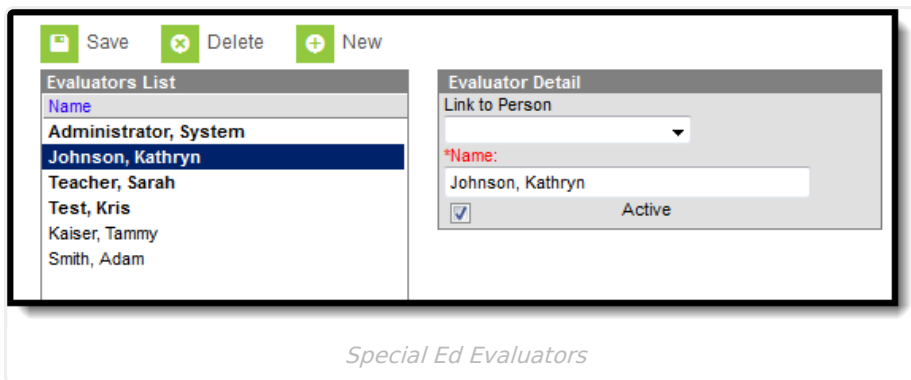

Last Modified on 10/22/2022 9:39 am CDT

Classic Path: System Administration > Special Ed > Evaluators

Search Terms: Evaluators

This tool is not available in all states.

The Evaluators tool lists individuals who can be assigned in an Evaluation.

Evaluators are used by states who include the Evaluator Assessments editor in their Evaluation. This tool lists evaluators based on the option selected for the *Use School Scope for SPED Staff/Advisors/Service Providers/Evaluators* preference in the [Special Ed Preferences](#). If this preference is set to *No*, all evaluators for the district will appear in the list, regardless of the School selected in the Campus toolbar.

Evaluators must be marked as active to appear in the Evaluator Assessments editor. Active records will appear in bold in the Evaluators List.

Create a New Evaluator

1. Select the **New** button in the action bar.
2. Select a name in the **Link to Person** field. This list includes all users in the district who have *Special Ed* marked on their [District Assignments](#).
3. Enter the individual's name in the **Name** field as it should appear in the Evaluator Assessments editor.
4. Mark the **Active** checkbox to indicate if this evaluator should appear to be selected in special education documents.
5. Click the **Save** button to save the record.
