Process Alert rules determine when Process Alert messages are sent. Message templates must be created on the Messages tab before establishing rules.

If a message is to be sent more than once for the same alert, multiple rules must be established for the alert (e.g., a rule to notify two weeks prior to the event and a separate rule to notify one week prior to the event). A single message may be used by multiple rules.

## Process Alerts Rules Editor

The following options are available.

### Rule Detail

Field	Description
<b>Active</b>	Selection indicates the rule is currently active.
<b>Rule Name</b>	Name of the rule.
<b>Associated Message Template</b>	Template from the <a href="#">Messages</a> tool assigned to the rule.

## Special Conditions

Field	Description
<b>Days Before/After Event Due</b>	Number of days before or after when the message should be sent.
<b>Count Option</b>	Entered number above is based on either School Days or Calendar Days.
<b>Before/After Logic</b>	<p>If the message related to the rule is to be sent BEFORE an event, select the “Before” option. If the message is to be sent AFTER an event, select the “After” option.</p> <div style="background-color: #fff9c4; padding: 10px; border: 1px solid #ccc;"> <p>When After is selected, the message will be sent after the EXACT amount of specified days have passed. This means that if an event occurred 11 days prior to the start date of the scheduled alert and the message is set to send 10 days after the event, the case manager will NOT receive an alert for that event.</p> </div>
<b>Event 1</b>	Selection indicates the event to which the before/after selection applies. See the list of <a href="#">Event Options</a> available.
<b>Event 2</b>	Selection indicates the event to which the before/after selection applies. See the list of <a href="#">Events Options</a> available.

## Create Process Alerts

### Rule Detail

1. Select the **New Rule** icon.
2. Mark the **Active** checkbox.
3. Enter the name of the rule in the **Rule Name** field.
4. Select the message template to which the rule should be applied. The message template must have been created on the [Messages](#) tab to appear in this list.

### Special Conditions

1. Enter the number of **Days Before/After Event Due**.
2. Select the option of whether to count by **School Days** or **Calendar Days**.
3. Select the **Before** or **After** option from the dropdown list.
4. Select the event for which this rule applies and the before/after logic is applied in the **Event**

- 1 dropdown.
5. If applicable, select the event before which the message should be sent from the **Event 2** dropdown list. This dropdown list is populated based on the event selected from the Event 1 dropdown list.
6. When finished, select the **Save** icon.

After establishing rules, use the [Scheduler](#) tab to set when the messages should be sent.

If a message is to be sent more than once for the same alert, multiple rules must be established for the alert (e.g., a rule to notify two weeks prior to the event and a separate rule to notify one week prior to the event). A single message may be used by multiple rules.

## Create Multiple Alerts for a Message

Multiple rules may be set to remind case managers of the same event. For example, if case managers can be reminded of upcoming triennial evaluation two weeks in advance and again one day in advance if the evaluation still has not been created.
