The **Attendance Register** report can be generated to show student daily attendance or course section attendance for those courses that are marked to take attendance.

- The **Student Daily Attendance** report calculates whole day and half day attendance based on the number of minutes defined in the grade level and calendar, and displays the result for each day for each student, including a summary of average daily attendance and average daily membership during that time frame.
- The **Course Section Attendance** report prints student attendance records based on course sections.
- The **Instruction Attendance Register Report** prints student attendance records for the selected term and section in a student-by-day grid, and is available in the Instruction toolset.

## Report Logic

Attendance calculations are determined using the Whole Day Absence minutes and Half Day Absence minutes entered on the [Calendar](#) and the Whole Day Absence and Half Day absence minutes entered on the [Grade Level](#).

Whole day and half day minutes only need to be entered on the Calendar. The grade level will assume the minutes from the calendar tab if the grade level minute fields are left blank.

Field	Description
<b>Report Type</b>	Indicates which Register report to generate. For this instance, choose <b>Student Daily Attendance</b> .

Field	Description
<b>Attendance Dates</b>	<p>The report can be generated by using a date range or by selecting a term of the school year. When using dates, enter a Start and End Date in <i>mmddyy</i> format, or use the calendar icon to select a date. These fields are defaulted to the current date. Any student who has an active enrollment for any part of the date range will be included in the report.</p> <p>When using the <b>Term</b> option, the grading terms of the calendar will appear for selection and will be defaulted to the term closest to the current date. Only attendance information for the selected term will be included in the report.</p>
<b>Page Orientation</b>	The Student Daily Attendance report can be generated in either Portrait or Landscape format. Landscape format is best when generating attendance information for a longer period of time.
<b>Students</b>	<p>Select the students to include on the report by choosing a grade level or an ad hoc filter.</p> <p>In addition, an effective date can be entered to report only those students who are actively enrolled on a certain date in the <b>Only include students actively enrolled on date</b> field. Dates are entered in <i>mmddyy</i> format or can be entered by selecting the calendar icon. An entered date must fall within the date range of the calendar selected in the Campus toolbar. This date field is an optional entry and does not need to be populated to generate the report.</p>
<b>Report Format</b>	Indicates how the report generates - in PDF or DOCX format.

## Generate the Report

1. Select the **Student Daily Attendance** as the **Report Type**.
2. Enter the attendance dates to include on the report by selecting a **Start and End Date** range or a **Term**.
3. Select the report orientation by selecting either **Portrait** or **Landscape**.
4. Select the desired students to include in the report by selecting either a **Grade Level** or an **Ad hoc Filter**.
5. If desired, enter a date in the **Only include students actively enrolled** on field.
6. Select the desired **Report Format**.
7. Click the **Generate Report** button.

The Course Section Attendance Register report prints students' attendance records based on course sections. This only includes attendance data for courses that are marked to take attendance.

## Attendance Register ☆

**Attendance Register**

The Course Section Attendance Register prints student attendance records by course-section, 1 page per section. Each student reports total periods Present, Tardy, Absent Unexcused, Absent Excused, and Off Roll. A register will print for the Primary Teacher and any other Teachers who are active in the date range unless "Print a copy for the Primary Teacher only" is selected. This is a complex report, please try to limit the number of teachers and sections selected per batch.

Course Section Attendance Register

## Report Logic

The Course Section Attendance report pulls information from student attendance data entered by teachers. Attendance information displayed on the report can also be seen on the student's [Attendance](#) tab, the [Course Section Attendance](#) tab, the [teacher's attendance](#) view and the

## Classroom Monitor.

Attendance data reports for the year, school, and schedule structure selected in the Campus toolbar for students actively or previously enrolled (if enrollment occurred during the entered date or selected terms on the report editor).

Teachers (primary, secondary, etc.) are included in the report based on their Staff History Assignment Start and End Dates. When the teacher is the primary teacher, the words "(Primary)" display in the report header after the teacher's name.

- If there are no assignment dates entered for the teacher, that teacher's name is included.
- If the teacher's assignment has a start date but no end date, that teacher's name is included.
- If the teacher has an assignment end date before the term selected on the report editor, the teacher's name is not included.
- If the teacher has an assignment end date within the date range selected on the report editor, the teacher's name is included.
- If the teacher has an assignment start date after the term selected for the report, the teacher's name is not included.

### By Date

- When the report is generated using a Start and End Date and the Primary Teacher has not changed during the entered date range, but does change later in the year, the Primary Teacher for the entered date range reports.
  - When the **Print a copy for the Primary Teacher only** option is not marked, the Primary Teacher for the entered date range reports.
  - When the **Print a copy for the Primary Teacher only** option is marked, the Primary Teacher for the entered range reports.
- When the report is generated using a Start and End Date and the Primary Teacher changes during that date range, the Primary Teacher as of the last day of the date range is considered the Primary Teacher for the entire date range.
  - If **All Teachers** is selected and the **Print a copy for the Primary Teacher only** option is not marked, a page reports for the last Primary Teacher. A page also reports for any Teachers who are active at the end of the Date Range.
  - If **All Teachers** is selected and the **Print a copy for the Primary Teacher only** option is marked, a page reports for the last Primary Teacher.
  - If a specific teacher is selected and the **Print a copy for the Primary Teacher only** option is not marked, a page reports for that teacher if that teacher is the last Primary Teacher or if that teacher was active at the end of the Date Range.
  - If a specific teacher is selected and the **Print a copy for the Primary Teacher only** option is marked, a page reports if that teacher was the last Primary Teacher.

### By Term

- When the report is generated for a Term and the Primary Teacher has not changed during the term, but changes later in the year, the Primary Teacher for the Term reports. It doesn't matter if the **Print a copy for the Primary Teacher only** option is selected or not.
- When the report is generated for a Term and the Primary Teacher changes during that term, the Primary Teacher as of the last day of the term is considered the Primary Teacher for the term.

- If **All Teachers** is selected and the **Print a copy for the Primary Teacher only** option is not marked, a page reports for the last Primary Teacher. A page also reports for any Teachers active at the end of the term.
- If **All Teachers** is selected and the **Print a copy for the Primary Teacher only** option is marked, a page reports for the last Primary Teacher.
- If a specific teacher is selected and the **Print a copy for the Primary Teacher only** option is not marked, a page reports when that teacher is the last Primary Teacher, or if the teacher is active at the end of the Date Range.
- If a specific teacher is selected and the **Print a copy for the Primary Teacher only** option is marked, a page reports when that teacher is the last Primary Teacher.

### By Term or By Date Range

- When the report is generated for a Term or for a Date Range and there is no Primary Teacher or no Teacher on the last day of the term or the last day of the date range, the most recent active Primary Teacher or Teacher is considered the Primary Teacher or Teacher for the term/date range.
  - If there is no Primary Teacher at any point in the term or selected date range, and the **Print a copy for the Primary Teacher only** option is marked, then the words "No Data" reports.

Option	Description
<b>Attendance Dates</b>	<p>The report can be generated by using a date range or by selecting a term of the school year. When using dates, enter a Start and End Date in <i>mmdyy</i> format, or use the calendar icon to select a date. These fields are defaulted to the current date.</p> <p>When using the Term option, the grading terms of the calendar appear for selection and default to the term closest to the current date. Only attendance information for the selected term is included in the report.</p>
<b>Page Orientation</b>	The Course Section Attendance report can be generated in either Portrait or Landscape format. Landscape format is best when generating attendance information for a longer period of time.
<b>Students</b>	Select the students to include on the report by choosing a teacher and section combination (or all teachers, all sections) or by choosing an ad hoc filter. When selecting teachers and sections, the sections can be sorted by the course number or the course name. Only students enrolled during the selected time frame in the selected sections are included in the report.

Option	Description
<b>Printing Options</b>	<p>Additional items can be selected on the report editor for inclusion on the Course Section Attendance Register Report. These printing options may increase the length of the report. Choosing the first two options reduces the length of the report by only printing primary teacher information and only printing instructional days.</p> <ul style="list-style-type: none"> <li>• <b>Print a Copy for the Primary Teacher Only</b> - When selected, only one copy of the report generates for the teacher whose name is in the Primary Teacher field on the Course Section editor. A report is not generated for the secondary teachers or section staff who are assigned to the course section.</li> <li>• <b>Include Only Instructional Days</b> - When selected, all days marked as non-instructional are omitted from the attendance data display. This includes weekends and non-school days.</li> <li>• <b>Include Non-Instructional Periods</b> - When selected, attendance sections scheduled in a non-instructional period print in the report.</li> <li>• <b>Use District Attendance Codes</b> - When selected, only attendance codes of A (Absent) and T (Tardy) are used.</li> <li>• <b>Print Classroom</b> - This selection prints a listing of attendance dates verified against the number of students present versus the number of students enrolled in the course section. This prints at the end of the report.</li> <li>• <b>Print Period Schedule</b> - This selection prints the schedule of class periods during the selected date range for the selected course sections. This prints at the end of the report.</li> <li>• <b>Print District Attendance Codes</b> - This selection prints a list of the district attendance codes that are used in the report. This prints at the end of the report.</li> </ul>
<b>Sort Options</b>	<p>The report can be sorted either by Teacher Name or by Course Name. By Teacher Name sorts information by the teacher's last name, grouping all of that teacher's course sections together. By Course Name sorts course information by the Course Number, then by the Section Number.</p>
<b>Report Format</b>	<p>Indicates how the report generates - in PDF or DOCX format.</p>
