**Classic View:** FRAM > Reports > Lunch Count; Attendance Office > Reports > Lunch Count

**Search Terms:** Lunch Count

The Lunch Count Report prints the number of lunches, milks and adult lunches for each course for the date you select on the report editor. This information is tallied from the data the teacher enters on the attendance entries in the Lunch, Milk, Adult Lunch, or Custom Count 1-3 fields.

The Lunch Count Report reports **0** when zero is actually submitted for the lunch count. The report will show **N/A** only if the teacher does not submit attendance for the section.

This report is for the type of lunch service where lunch is made available for a set number of students and adults and may be used in restricted classrooms or schools where there is no specific lunch location but lunch is provided for students.
