

Positive Behavior Overview - Video

Last Modified on 10/17/2024 9:24 am CDT

This video is an overview of how Positive Behavior can be tracked and reported in Campus.

Your district will need to decide what kinds of positive behaviors will be submitted, recorded and tracked, how they'll be reported, and how this information will be communicated with stakeholders such as staff, parents and students.

Districts tracking both Award and Discipline behaviors need to ensure that behavior letters, messaging and reporting are properly configured to differentiate between the two when appropriate.
