

Badge Printing

Last Modified on 10/22/2022 9:43 am CDT

The Scanning toolset is part of the [Campus Workflow Suite](#).

[Print Student Badges](#) | [Print Staff Badges](#)

Classic View: Census > Reports > Badge Printing

Search Terms: Badge Printing

The Badge Printing tool generates a PDF of badges based on templates created in the [Badge Designer](#) tool. Badge generation is specific to the selected calendar.

Generating badges for the entire student or staff set will take several minutes and your browser may slow down throughout the process.

What can I do?

Badge Printing Tool Example

Print Student Badges

1. Select the **Badge Template**.
2. Select **Entire Calendar** or **Filtered** from the **Student Set** dropdown list.
The following options are available when the Student Set is set to **Filtered**.

Filter Option	Description
Student(s)	Narrows the student set to specific student(s) for whom you want to print badges. You can select multiple students.
Grade Level(s)	Narrows the student set by grade(s). You can select multiple grades.
Ad Hoc Filters(s)	Narrows the student set by ad hoc filters created in the Filter Designer . You can select multiple Ad hoc filters.
Set Operation	Narrows the student set within the Ad hoc filters. Union includes all students within all Ad hoc filters selected. Intersection only includes students that overlap between the selected ad hoc filters.

3. Select whether you want to generate the badges in **Alphabetical** order or by **Grade** then Alphabetical order in the **Order Badges By** field.
4. Click **Generate**.
Result: Campus creates a PDF file with the badge(s).

Print Staff Badges

1. Select the **Badge Template**.
2. Select one of the following options from the **Staff Set** dropdown list.
 - **Current School**
 - **School Filtered**
 - **Entire District**
 - **District Filtered**

The following options are available when the **Staff Set** is *School Filtered* or *District Filtered*

Filter Option	Description
Staff Member(s)	Narrows the student set to specific staff member(s) for whom you want to print badges. You can select multiple staff members.
Ad Hoc Filters(s)	Narrows the student set by ad hoc filters created in the Filter Designer . You can select multiple Ad hoc filters.
Set Operation	Narrows the student set within the Ad hoc filters. Union includes all students within all Ad hoc filters selected. Intersection only includes students that overlap between the selected ad hoc filters.

3. Click **Generate**.

Result: Campus creates a PDF file with the badge(s).
