[Household Information Data Elements](#) | [Modify Household Information](#) | [Modification Alerts](#)

Classic View: Census > Households > Household Info

Search Term: Household Information

The **Household Information** lists the phone number, the address and any members who may be in the home. Household information is used to view individuals tied together under one house name. Like other areas in the Census module, this information becomes vital when assigning guardians and generating household mailings and locating other student data.

The creation of households is done in the [Add Household](#) wizard. Modifying the original household information is done on the Household Info tab.

Household Information

Household Information Data Elements

The following fields are located on the Household Info tab.

Data Element	Definition
Name	Household name - often in the form of a guardian's last name and first name. The format used is determined by district policy.

Data Element	Definition
Phone Number	Phone number associated with the household (not necessarily the home phone number).
Private	Indicates the address details should be kept within school settings. Marking this checkbox does not remove the address from reports. See the Private Checkbox Information article for more details.
Comments	Additional information about the household.

Modify Household Information

1. Enter the name of the household in the **Name** field. Review district policy for proper guidelines on entering household names.
2. Enter the household's **Phone Number** in the appropriate format, listing area code first (i.e., (XXX)-XXX-XXXX x XXXX). The last phone number field is used for extensions.
3. Determine if the **Private** checkbox should be marked.
4. Enter additional **Comments** about this field, if necessary.
5. Click the **Save** icon when finished. The modified data will now appear in the editor.

Modification Alerts

The Household Info tab contains sensitive information about students and where they may live. In addition, the altering of this data by district staff members should be controlled by user tool rights. A notification appears at the bottom of this editor that indicates which user modified the information and when.

The screenshot shows the 'Household Information' form in a web application. At the top, there are 'Save' and 'Delete' buttons. The form fields include 'Name' (with the value 'Campus Household'), 'Phone Number' (with the value '(612) 555-7440 x'), and a 'Private' checkbox which is unchecked. Below these fields is a 'Comments' text area. At the bottom of the form, a red-bordered box contains the text: 'Modified by: Administrator, System 04/26/2021 14:08'.
