The Federal government has adopted standards for defining racial and ethnic data to be used by the Department of Education. To address this mandate, Infinite Campus provides a Race/Ethnicity Wizard for users to enter race/ethnicity data for students and all persons, if necessary. See the following sections below for more information about understanding and using Wisconsin requirements to the Race/Ethnicity wizard.

See the core [Race/Ethnicity](#) article for information on necessary tool rights, available Ad hoc fields, and guidance on adding records.

Federal Requirements

Educational institutions and other recipients of grants and contracts are required to collect and report racial and ethnic data.

When collecting racial/ethnic data at the elementary and secondary school level, the identification of a student's race and ethnicity is to be primarily made by the parents/guardians of the student rather than the student.

When reporting data to the Department of Education, aggregated racial and ethnic data will be reported in the following seven (7) categories:

Code	Racial Category	Definition
1	Hispanic/Latino	A person of Cuban, Mexican, Puerto Rican, South Central American or other Spanish culture or origin, regardless of race; and for persons who are non-Hispanic/Latino only.
2	American Indian or Alaska Native	A person having origins in any of the original peoples of North and South America (including Central America), and who maintains a tribal affiliation or community attachment.
3	Asian	A person having origins in any of the original peoples of the Far East, Southeast Asia or the Indian subcontinent including Cambodia, China, India, Japan, Korea, Malaysia, Pakistan, the Philippine Islands, Thailand, and Vietnam.
4	Black or African American	A person having origins in any of the black racial groups of Africa.
5	Native Hawaiian or Other Pacific Islander	A person having origins in any of the original peoples of Hawaii, Guam, Samoa or other Pacific Islands.
6	White	A person having origins in any of the original peoples of Europe, the Middle East or North Africa.

Race Ethnicity Subcategories

Along with identifying if a student is Hispanic/Latino as well as any other races, users can also define Hispanic/Latino subcategories. This functionality allows users to better describe a student's ethnicity and provides more meaningful data within state reports.

This information is required for the 2021-22 school year.

When the **Detailed Hispanic/Latino Code** field populated, the answer to Is the individual Hispanic/Latino must be Yes, otherwise the selected detailed code does not save.

Add Race Data via the Race/Ethnicity Wizard

A user can add race/ethnicity information on the [Demographics](#) or [Identities](#) tabs.

1. In the Person Information editor, select the **Edit** link next to Race/Ethnicity.
2. Determine the answer to **Is the individual Hispanic/Latino?** If *Y: Yes* was selected, select a **Detailed Hispanic/Latino Code** value. If *N: No* is chosen, at least one Race checkbox must be selected.
3. Determine the answer to **Is the individual from one or more of these races?** Select all appropriate options. See the table of Racial Categories for reference.
4. Once a race has been selected, select a **Detailed Ancestry/Tribal Codes**, if applicable.
5. Select the **Race/Ethnicity Determination** option. This identifies that either the student or legal guardian(s) has not been re-surveyed, or defines how the individual's race/ethnicity was defined at the time they were re-surveyed. Options are shown in the table below.
6. Click the **Save** icon when finished. Updated race/ethnicity information will be visible.
