

View Modifications made to an Eligibility Record

Last Modified on 10/22/2022 9:44 am CDT

Classic View: FRAM Eligibility

Search Term: Eligibility

To view who last modified the Eligibility record and on what date, hover the cursor over the record within the Eligibility Editor window.

Eligibility Editor									
School Year	Eligibility Type	Eligibility	State Code	Certified Type	Start Date	End Date	Opt Out Med.	Opt Out SCHIP	
19-20	Meal	Free	2	Income	07/01/2019	09/29/2020	X	X	
<div style="border: 1px solid black; padding: 2px; display: inline-block;">Modified By: Administrator, ASystem - 05/20/2019</div>									

Modified By Hover Display

The hover will indicate who modified the record and on what date for any of the following reasons:

- A new manual record is entered or a change is made to an existing record within the Eligibility tool. This does not include any changes made to the Permission Detail section of the Eligibility Detail editor.
- Entry of a Meal Benefits Application or Educational Benefits Application via the [Household Application tool](#) or via [Online Meal Benefits Application](#).
- Use of the [Eligibility End Date Wizard](#).
- Use of the [Eligibility Import Wizard](#) to run a manual or Batch Import. If New File Import is selected and the new file is uploaded with no change to the mapping, the person who selected New File Import and uploaded and imported the new file will appear as the Modified By person and date.
- When a Scheduled Import is run, the name of the last user who edited the mapping of the import selected to run from the Eligibility Import Wizard will be the Modified By person and date.

If the fields for modifiedBy and modifiedDate are null for a record within the POSEligibility table, the hover will display "Modified By: Unknown" with no date indicated.

If a user saves an existing eligibility record where Modified By and Modified Date were null and the user did not make any changes, the record will retain the user who saved the record as the Modified By and Modified Date. This will only happen for the first time a null record is saved without changes. This will not happen if the record is not null and is saved without any changes being made.
