

# CallerID Preferences

Last Modified on 10/22/2022 9:46 am CDT

This article only applies to schools/districts that use [Campus Messenger with Voice](#) add-on functionality. Please review the [District Setup Checklist](#) before the initial configuration of these settings.

**Classic View:** [System Administration](#) > [Messenger](#) > [Messenger Preferences](#) > [CallerID Preferences](#)

**Search Terms:** [CallerID](#), [CallerID Preferences](#)

The CallerID Preferences are used to configure [Campus Voice Messenger](#). Voice message communication is enabled through Shoutpoint and the configuration of this screen is required for Shoutpoint delivery of Campus-created voice messages to recipients.

These settings only apply to voice messages; they do not affect email messaging.

## Configuring Caller ID

This tool allows the district to specify a caller ID number to be shown to recipients of phone messages. The phone number shown may be individualized to reflect the specific school phone number or the district phone number. The caller ID phone numbers should reflect numbers that message recipients can call back with additional questions.

When a school is selected, the school phone numbers will auto-populate the Messenger Caller ID Detail editor. The displayed number is pulled from the **Phone** field of the School tool. If *All Schools* is selected in the Campus toolbar, the district phone number will display, as entered in the **Phone** field on the District Information tool.
