This section applies when the **Adjust Fee Assignments** option was selected in the first step of the Fees Wizard.

Classic View: Fees > Wizards > Fee Wizard

Search Terms: Fee Wizard

The Adjust Fee Assignments mode modifies the selected fee for the students matching the selected criteria (enrolled in the selected calendar and grade level or included in the selected ad hoc filter). Adjusted fees are visible on the student's [Fees](#) tab. A Fees Wizard log entry is also created and visible from the first page of the [Fees Wizard](#).

Fee Wizard

This wizard will adjust Fee Assignments either a Fixed Amount or a Percentage. The adjustment amount may never exceed the Fee Assignment amount. Only Fee Assignments marked "May be Adjusted" will be displayed in the list of adjustable Fees. Use the "Only adjust Fees which have no previous adjustments" checkbox to prevent Fees from being adjusted multiple times.

Fee Payments made against Fee Assignments that are being adjusted will be voided if necessary. The wizard will begin voiding the largest In Office Fee Payments and continue voiding the payments until the balance is greater than or equal to the adjusted amount. Any money not applied to a Fee Payment will be returned to the student as a Surplus.

You must select how you want to handle situation where the payment is a credit card payment or online payment. If you chose to Continue Processing and void such payments, these payments will be added to the persons surplus and hence can no longer be refundable in the Payments Reporter. If you chose to Stop processing, you will be given a list of the Fees found that have such payments and allow you to use the Payments Reporter to refund these payments. After they are refunded you can use the Fees Wizard to adjust the assignments.

Adjust Fee Assignments

Important Information about Adjusting Fees

When adjusting fees, note the following.

- When subtracting an amount, the fee may not be adjusted more than the Fee Assignment amount or the remaining balance, whichever is greater.
- When subtracting a percentage, entered values can be between .001% and 100%.

Adjustment Scenarios

- If a fee assignment does not have child transactions, the balance is adjusted by the value or percentage that you enter.
- If a fee assignment has adjustments, the balance is still adjusted by the value or percentage that you enter.
- No changes can be made to voided fees.
- A fee assignment that has a single payment either in full or partial:
 - If the payment was made in full, the payment will be voided and the money will be noted as a surplus. If the adjustment was not 100% of the fee assignment, the remainder will be auto-paid to the fee assignment in order to pay the fee in full.
 - If the payment was partial, the balance is checked to see if it is greater than or equal to the adjusted amount.
 - If the balance is greater than or equal to the adjusted amount, an adjustment will be created for that fee assignment.
 - If the balance is not greater than or equal to the adjusted amount, the payment is voided and the money is marked as a surplus. The adjustment is made then the fee balance is paid out of the surplus.
- Multiple payments can be made to pay the balance. When adjusting fee assignments, adjustments are made first by type then size of payment. Online payments are voided last.
- An adjustment was made after an online payment was made. There are two ways to handle this:
 - Make a refund for the amount of the adjustment using the [Payments Reporter](#) tool.
 - Deposit the amount of the adjustment to the surplus on the [Fees](#) tool.

Adjustments to fee assignments are noted on the student's [Fees](#) tab on the Edit Fee Assignment window.

Adjust Fee Assignments Editor Options

The following options are available when using the Adjust Fee Assignments mode:

Field	Description
Date	Entered date determines when the fee was adjusted. This date appears on the student's Fees tab. Dates are entered in <i>mmdyy</i> format, or use the calendar icon to select a date.
