

Step 1. Start a New Verification (FRAM)

Last Modified on 10/22/2022 9:52 am CDT

Classic View: FRAM > Verification

Search Terms: Verification

Before You Begin

- Verify the [Verification Preferences](#) tab of the [FRAM Preferences](#) is configured.
- Verify applications being excluded from the Verification process are marked as "excluded" on the [Household Applications](#) tool.

1. Click **New** on the action bar.

Result

The Free Reduced Verification Detail editor displays.

The screenshot shows the 'Verification' page in the FRAM system. A red box highlights the 'New' button in the top left corner. A red arrow points from the 'New' button to the 'Free Reduced Verification Detail' form below. The form contains the following fields and options:

- Verification Type:**
 - Standard Sample Size (Error Prone)
 - Alternate Sample Size One (Random)
 - Alternate Sample Size Two (Error Prone plus Categorical)
- *Year:** 20-21 (dropdown menu)
- Application Approved Date:** 10/01/2020 (text input)
- Exclude DRCT Applications:**
- Exclude CEP:**
- Include Application Detail:**

At the bottom of the form, there is a note: "* Infinite Campus recommends performing a Confirmation Review prior to Generating Verification." and two buttons: "Confirmation Review" and "Generate Verification".

2. Select a **Verification Type**.

The standard selection for most districts is the **Standard Sample Size (Error Prone)**. The **Alternate Sample Size One (Random)** and **Alternate Sample Size Two (Error Prone Plus Categorical)** options are alternative methods of verification that require special state permission. (Please see the [Verification Types and Logic](#) article for more information.)

3. Select the school **Year** for which the verification should be performed.

4. Verify the **Application Approved Date**.

This read-only field is populated according to the school year selected in Step 3. Applications approved on or before this date are included in the verification pool.

5. Mark the **Exclude DRCT Applications** checkbox to review which applications should be removed from the Verification process.

When you select this checkbox and perform a Confirmation Review, the report will provide a list of applications that should be considered for exclusion. When you select this checkbox and select Generate Verification, the process will exclude the applications in the database.

6. Mark the **Exclude CEP** checkbox to exclude applications from students enrolled at a CEP school from the verification pool.

Only applications where all student enrollments are at a CEP school are excluded.

7. Mark the **Include Application Detail** checkbox if you want the application details to be included on the confirmation and validation reports.

8. Click **Confirmation Review** to perform a final review of all qualified applications prior to generating the Verification sample.

Result

The Confirmation Review Report (PDF) displays.
