

# Standards (Course Masters)

Last Modified on 10/22/2022 9:55 am CDT

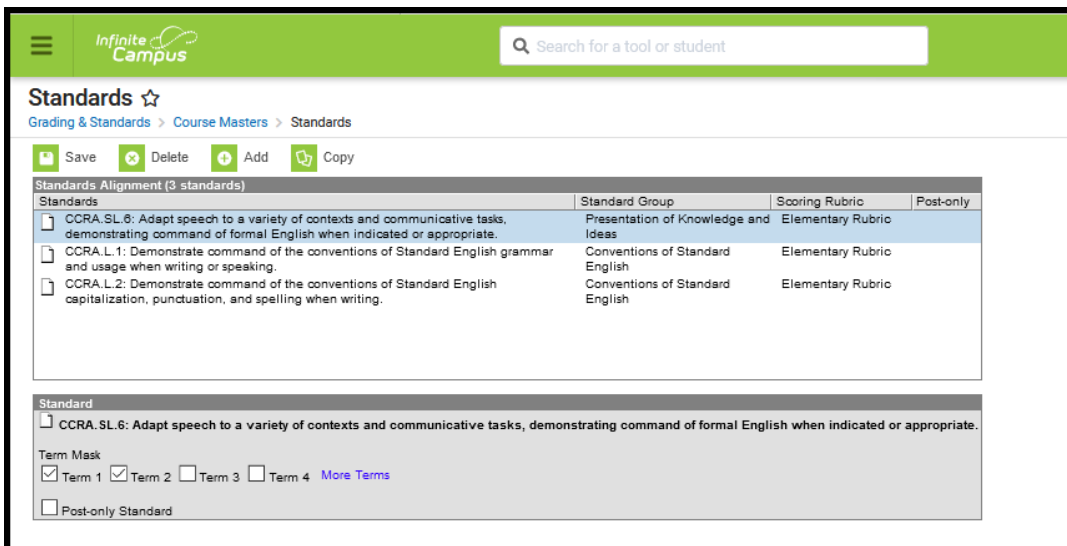

[Standard Information in Ad hoc Query Wizard](#) | [Course Master Workflow](#) | [Add Standards](#) | [Delete a Standard from a Course Master](#) | [Copy a Standard to Another Course Master](#)

**Classic View:** Grading and Standards > Course Masters > Standards

**Search Terms:** Standards

The **Standards** tab lists the standards which the school must administer and/or grade for the selected course. To add standards to a Course Master, standards must be created first in the [Standards Bank](#).

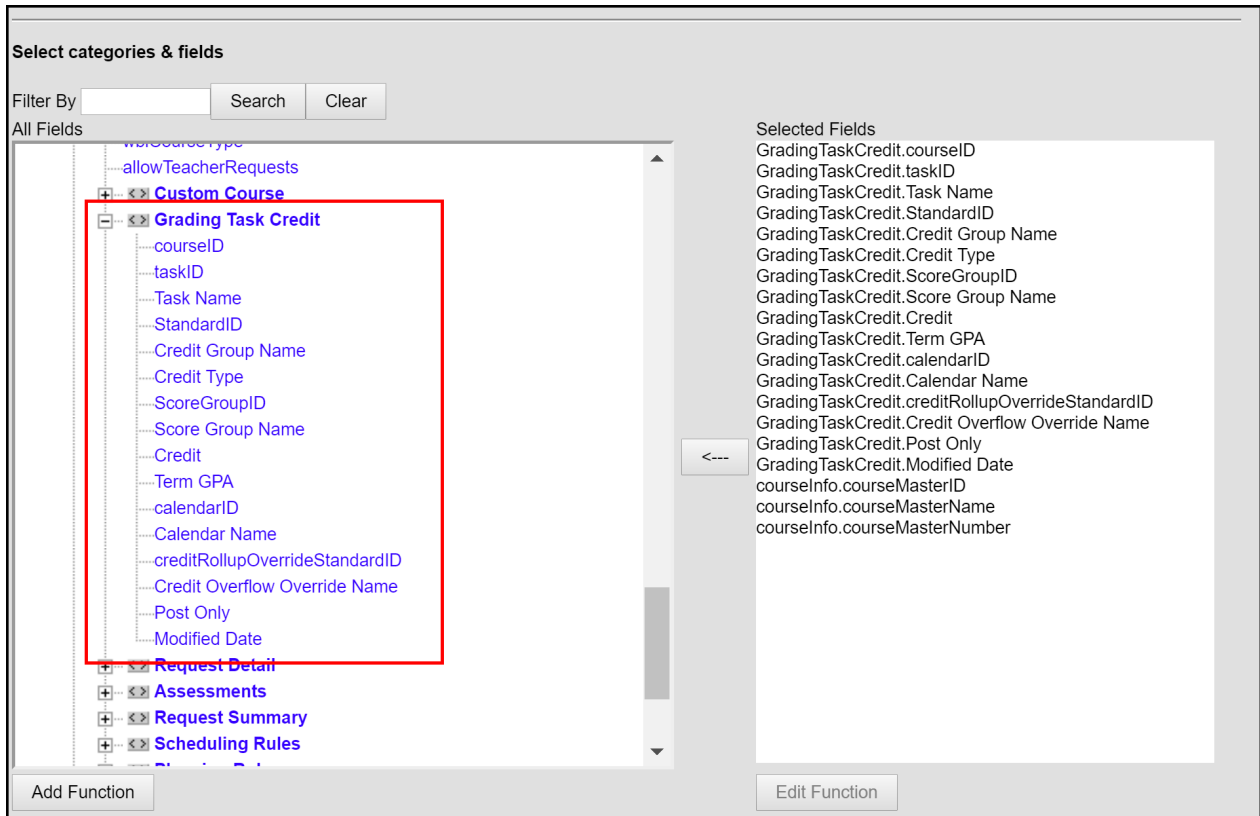

Any changes made to the Standards or any other Course Master tab require a push process to the courses. This option is available on the [Course Master Info](#) tab.

*Course Master Standards*

## Standard Information in Ad hoc Query Wizard

Course Master Standard fields are available in the Query Wizard when using the Course/Section Data type in the **Course > Course Information > Grading Task Credit** folder.

*Standards Fields in Ad hoc*

## Course Master Workflow

Expand to view how this tool fits into the workflow of managing Course Masters (step 5):

▶ [Click here to expand...](#)

## Add Standards

Select **Add** from the Action Bar. A **Standard Detail** window appears with a **Search** field and the expanded list of Standards. The search engine searches based on Abbreviation and standard Display Name. Only standards attached to the selected school on the [School Standards](#) tool appears in the selection list.

### Searching for a Standard

The results window lists the full Standards Bank in expanded form. Users can manually scroll through this list if desired. Standards are listed as follows: Abbreviation: Display Name (Location). After selecting a standard, a blue checkmark icon appears next to the name of the standard in the search results and the standard is added to the **Aligned Standards** section.

Multiple standards can be added to a course within one save action. A checkmark icon appears next to each selected Standard in the search list. Users can then mark the appropriate **Term Mask**, which determines when the standard is assessed.

Users can also mark the **Post-only Standard** checkbox. This checkbox indicates teachers cannot align assignments or categories to the standard. Post-only standards are only used for posting scores, not for tracking student progress. When the checkbox is marked, an X displays in the Standards Alignment table in the Post-only column.

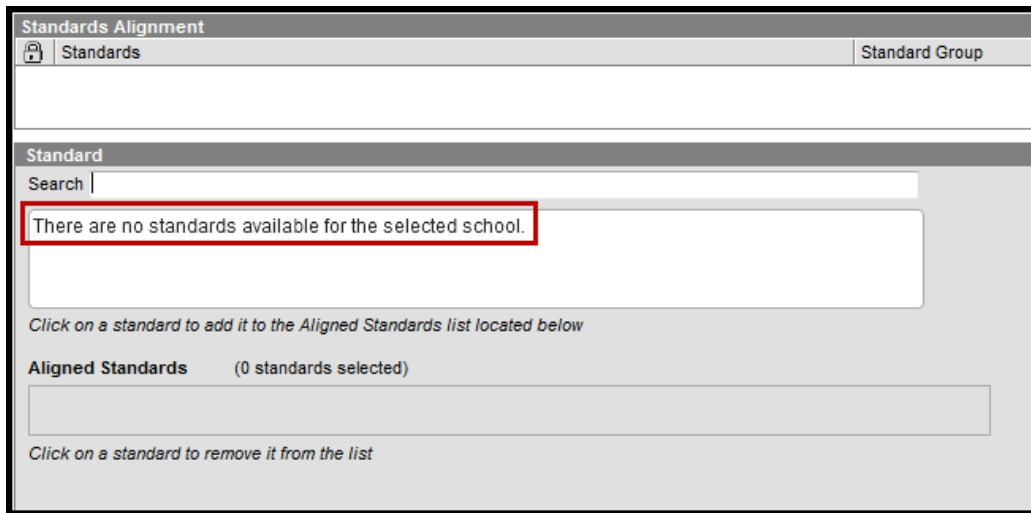

Standards that are assessed multiple times can be added, as well as standards that are assessed once (called One-Time Standards). See the [Standards Bank](#) article for more information on One-Time Standards and general Standards setup.

It is recommended that users add standards to courses by term in order to utilize en masse updating options on Term Mask.

To remove a Standard, click the Standard in the Aligned list or in the search results.

Click **Save** to add the selected standard(s) to the course.

If a school has not added a Standard in the [School Standards](#) tab, a message appears when a user attempts to add a standard to a course.

*No School Standards Selected*

## Delete a Standard from a Course Master

1. Select the **Standard** to delete from a course from the Standards Alignment table.
2. Click the **Delete** icon. A warning message appears indicating the standard is about to be deleted. A warning message appears indicating the Standard is about to be deleted. If the Grading Task is used in a composite grade calculation, that calculation must be edited to not use the Standard that's being deleted.
3. Click **OK** to continue or click **Cancel**.

Users cannot delete a standard if scores have been entered for it.

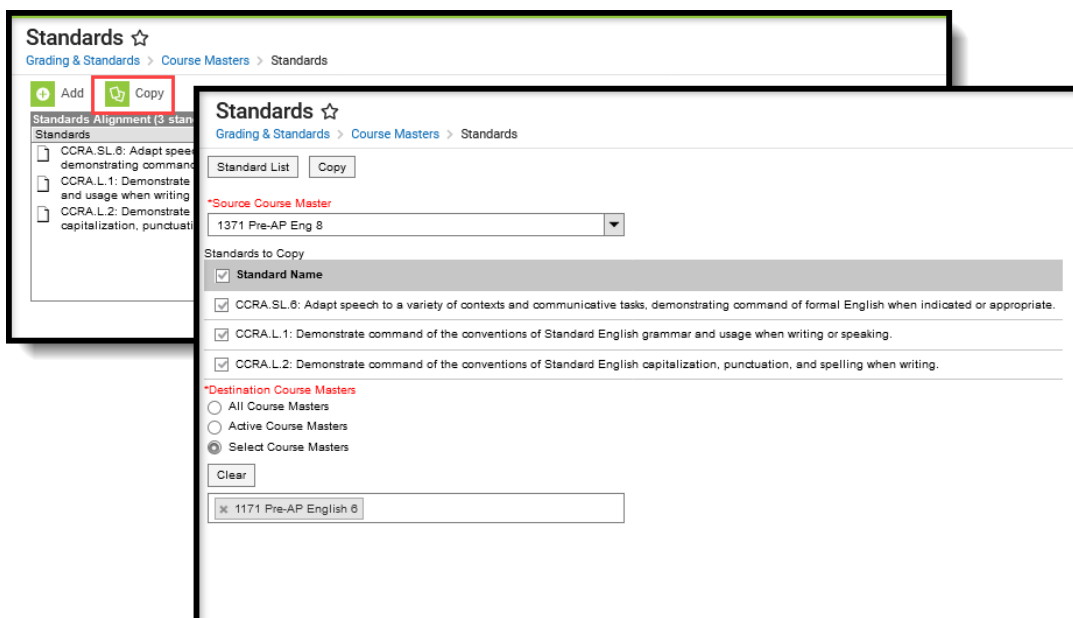

## Copy a Standard to Another Course Master

The entire Course Master can be copied from one school to another using the Copy button on the [Course Master Info](#) tab.

Use the **Copy** icon to easily add the Standards associated with one Course Master (called the Source Course Master) to one or more other Course Masters in the same Course Catalog (called Destination Course Masters). The **Copy** icon displays when proper tool rights are assigned.

When copying standards from one course master to another:

- The **Course Catalogs** must be the same for the source course master and the destination course master.
- Standards that already exist in the destination course master are not copied again. This means when five standards are selected to be copied in the source course master, but three of those already exist in the destination course master, only the two that do not exist in the course master are copied.
- When a Course Catalog is locked for standards, the copy process pushes the standard to the destination courses.

### Copy Course Master Standards

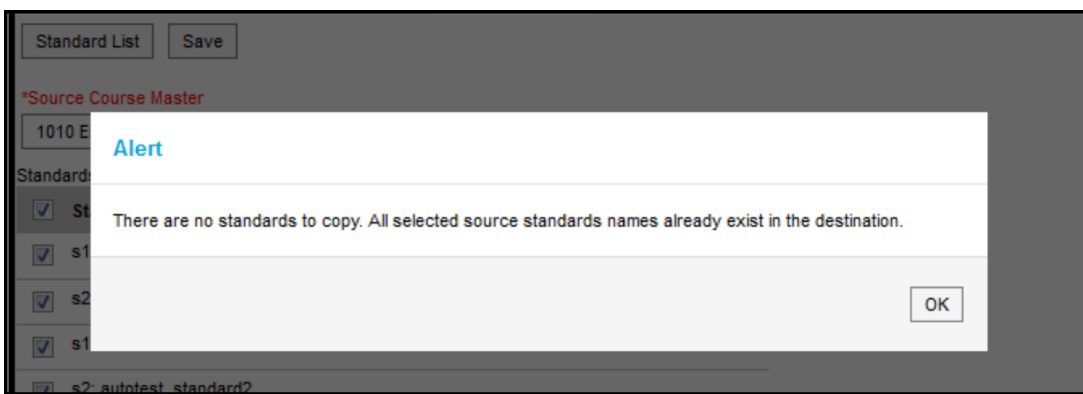

1. Select a specific standard to copy or just click the **Copy** icon without selecting a standard. When a specific standard is selected to copy, that standard is the only one selected to copy; when no standards are selected to copy, all of the standards in that Course Master are automatically selected to copy.
2. Select the **Source Course Master** from the dropdown list. This displays the course master to which the current standards are assigned. To change this selection, begin typing in the dropdown field.
3. Mark the **Standards to Copy**. Or, clear the selections by clicking the checkbox in the gray **Standard Name** header.
4. Select the **Destination Course Master**:
  1. **All Course Masters**: copies standard(s) to all course masters in the course catalog.
  2. **Active Course Masters**: copies standards(s) to all course masters in the course catalog that currently have the Active flag marked.

3. **Select Course Masters:** copies standards(s) to the selected course masters. To select a master, type the Number or Name in the search field. Multiple masters can be selected. Click **Clear** to remove all masters from the list.
5. Click the **Save** button to copy the selected standards to the destination course master. This action saves the selection; the standards are not copied until a school year is selected (see the information below).

When the copy is complete, and the catalog is locked, an alert displays asking to which calendar years the information should be pushed. Select the school year from the dropdown and click **OK**.

A confirmation displays indicating the selected standards from the Source Course Master have been copied to the Destination Course Masters. At this point, the standards are copied and are displayed on the Course Master Standards tab of the Destination Course Master(s).

If there are no standards to copy, an alert displays indicating all selected standards already exist in the destination course master.

*Alert Indicating No Standards were Copied*

To return to the main view of Course Master Standards, click the **Standards List** button.
