Health vaccines and their associated compliance listings are based on state guidelines. While Infinite Campus maintains standard guidelines for all states, districts have the ability to enter additional compliances. The following information describes vaccine compliance rules as defined by the Indiana State Department of Health.

As of the 1214 Release Packs (April 2012), vaccine compliancy has been updated to have a Live Vaccine option. The following vaccines have been updated to include the Live Vaccine:

- MMR
- MMRV
- Measles
- Rubella
- Mumps
- Flu
- Varicella

See information on the [Vaccines](#) tool for more information on this option.

General Compliance

- Vaccine doses administered less than or equal to four days before the minimum interval or age are counted as valid.
- Doses administered five days earlier than the minimum interval or age are not counted as valid doses and should be repeated as age-appropriate.
- No requirements exist for state grade PW (preschool 0-2 years).
