Classic View: Federal Reporting > Civil Rights Data Collection (CRDC)

Search Terms: Civil Rights Data Collection (CRDC)

The Federal Reporting folder contains tools used for generating files submitted to the Federal Government

The following describes all tools found within the Federal Reporting module:

Tool	Description
OSEP	The OSEP folder contains tools used for generating OSEP reports.
Civil Rights Data Collection (CRDC)	The CRDC collects a variety of information regarding student enrollment, educational programs and services, race/ethnicity, limited English proficiency, sex, and disability.
Reporting Course Completion Data	Describes the process for reporting course completion data for state-linked districts.
NWEA Test Information	NWEA (Northwest Evaluation Assessments) tests are administered to all students in grades K-10.
