The Gap and Overlap Report identifies a gap or an overlap in a student's assignment to a Blended Learning Group.

There could be a valid reason the student had a gap or overlap in their Blended Learning Group assignment - e.g., there was an end to an enrollment or an end to the student being in a virtual learning situation. If that is the case, no further action is needed. If changes do need to made, modify the student blended learning group assignments using the Adjust Blended Learning Groups tool and select **Student Group Assignment**.
