Cumulative grading is established in Grade Calc Options.

To set up Cumulative Grading select a term in the **Cumulative Grading Starting in** field. In the example above, cumulative grading is established for all standards in all terms in the section - cumulative grading can also be set for individual tasks or standards as well.

## **Grade Book Example**

In the grade book, any cumulative grading setup is indicated in heading of the **In Progress** section of Grade Total, as in the following image:

Established cumulative grading rules are indicated in the In Progress header of Grade Totals

In the example shown in the image above, the section of American & British Literature meets during Terms 1 and 2. The standard "Cite thorough textual examples" is assessed across both sections using formative assignments that are not included in calculations, and essay assignments aligned to the Summative category, which contribute to In Progress grades.

In Grade Calc Options, the district selected a **Method** of Mode of Last 5 and set **Cumulative Grading** to start in term 1. Term 2 is shown in the grade book image.

The grade book is filtered to show only assignments aligned to the Summative category. The In Progress score for the Summative Category (the Mode of last 5) is calculated from the 3 assignments in term 2 (shown above) and 2 assignments from term 1.

### **Cumulative Grading in Parent and Student Views**

Be aware of the following when setting up cumulative grading: In parent and student views of grades (such as in the Portal and Campus Student), grades are shown for all terms included in the cumulative logic. Therefore, the current In Progress grade earned by the student will be shown for future terms, even if they haven't begun yet.
