

Trials - Video

Last Modified on 10/22/2022 10:04 am CDT

The Trials tool gives limited access to existing trials that have been created for scheduling purposes in Campus. This is different than the level of access users have to Trials in Schedule Wizard. This video explains how to delete, unlock, or add comments to an existing trial.

Note: In the Campus.2239 Release Pack (September 2022), the word 'Active' has been added in parentheses to the active Trial.
