

# Setup SIF Grade Levels

Last Modified on 10/22/2022 10:04 am CDT

[Accepted SIF Grade Levels | Mapping Local Grade Levels to SIF Grade Levels](#)

This article is designed for advanced technical users only and is relevant to districts using [SIF Data Exchange](#).

**This article is part of an ordered [SIF Configuration process](#) and applies to both methods of configuration ([Horizontal](#) and [Vertical](#)).**

Before beginning, please consider this setup step in relation to the ordered setup steps of the [SIF Configuration process](#):

- [Setup School SIF Codes](#)
- [Setup SIF Grade Levels](#)
- [Setup SIF Zone](#)
- [Setup SIF Agent](#)
- [Setup SIF Data Access Rights](#)
- [Register Agent](#)
- [Request Data Sync](#)

Local school grade levels not entered in SIF-approved format must be mapped to a SIF grade level if they should be included in SIF reporting and data exchange.

## Accepted SIF Grade Levels

**PATH:** [System Administration](#) > [Calendar](#) > [Calendar](#) > [Grade Levels](#)

If a school/district has a grade level intended for inclusion in SIF reporting and data exchange that does not match a SIF grade level, the local school grade level must be manually mapped to the appropriate SIF grade level.

The SIF-approved grade level values are: **PK, KG, 01, 02, 03, 04, 05, 06, 07, 08, 09, 10, 11, 12, Other** and **Unknown**.

The value entered in the **Name** column/field of the [Grade Levels](#) tool must exactly match one of the SIF grades listed above or be mapped through the **Standard Code (SIF Code)** field as instructed below, or it will not be included in SIF data exchange.

Grade levels with a **Name** value that matches a SIF-approved grade level do not need to be mapped.

## Example

For example, the following screenshot indicates a school with three grade levels that do not match

the SIF-approved grade levels and must therefore be manually mapped:

### *Identifying Local Grades to be Mapped to SIF Grades*

Grade levels H10, H11 and H9 must be manually mapped to a SIF grade level. The other grade levels do not need to be mapped because they match SIF grade levels.

## Mapping Local Grade Levels to SIF Grade Levels

Mapping a local grade level to a SIF grade level by entering a SIF-approved grade level in the **Standard Code (SIF Code)** field of the Grade Level Detail editor:

Calendar   **Grade Levels**   Schedule Structure   Terms   Period

 New    Save    Delete

**Grade Level Editor**

Name	Seq
H09	0
H10	0
H11	0
9	10
10	11
11	12
12	13

**Grade Level Detail**

Name (locked)  
H10

\*Sequence Number  
0

\*State Grade Level Code  
10: Seventh Grade

Standard Day

Maximum Membership Days (<= instructional days)

Whole Day Absence (minutes)

Half Day Absence (minutes)

Maximum Approved School Choice Applications  
0

Kindergarten Code

Exclude from cumulative GPA/Rank calculations

Exclude from state reporting

Exempt from Assignment

**Standard Code (SIF code)**  
10

Exclude from SIF reporting

### Mapping Local Grades to SIF Grades

1. Navigate to the [Grade Levels](#) tool.
2. Select a grade level listed in the Grade Level Editor that should be included in SIF data exchange/reporting but does NOT have one of the following **Name** values: PK, KG, 01, 02, 03, 04, 05, 06, 07, 08, 09, 10, 11 or 12.
3. Map the grade level to a SIF grade level by entering one of the previous, SIF-approved values in the **Standard Code (SIF Code)** field.
4. Click **Save**.
5. Repeat steps 2 through 4 for other local grade levels that should be mapped to SIF grade levels.

**To continue SIF setup, proceed to [Setup SIF Zone](#), or return to the [SIF Configuration page](#).**
