BIE Course Data

Class View: [Scheduling](#) > [Courses](#) > [Course](#)

The BIE Course Data section of the Course Editor is used to identify BIE funded and approved courses. Fields within this section are used for state and federal reporting and are therefore only reporting indicators. Additional course or program setup may be needed as determined by the school, district or state. Fields within the BIE Course Data section sync to NASIS.

If your district uses Course Masters, the same fields display on the Course Master editor and Course editor.

The screenshot shows the 'BIE Course Data' form with the following fields and values:

- *BIE Core Type:** Core: BIE Core Course (dropdown)
- BIE Approved:** Y: Yes (dropdown)
- BIE Funded:** Y: Yes (dropdown)
- Postsecondary Credit:**
- Advanced Placement:**
- International Baccalaureate:**
- Dual Credit:**
- College Preparation:**
- Career Development:**

BIE Course Data

Field	Description
BIE Core Type	Required field with two selection options: <ul style="list-style-type: none"> Core: BIE Core Course Non-core: BIE Non-core Course

BIE Course Data Ad hoc Reporting

Create a report that pulls BIE Course Data fields in the Filter Designer and Data Viewer using the Course/Section Data Type. BIE Course Data fields are located in Course > Course Information.

The screenshot displays the 'Course' tree structure in the Infinite Campus interface. The 'Course Information' folder is expanded, showing a list of fields. A red box highlights the 'BIE Course Data Ad hoc Fields' section, which includes the following fields:

- coreTypeBIE
- approvedBIE
- fundedBIE
- postsecondaryCreditBIE
- advancedPlacementBIE
- internationalBaccalaureateBIE
- dualCreditBIE
- collegePreparationBIE
- careerDevelopmentBIE
