The Student Bus Assignment Report prints bus information for students in either list or badge form. The report can be generated based on bus number or teacher, and will print student transportation data as of the entered effective date. Use Avery Labels 74541 for best results when printing in badge format.

See the [Printing Labels](#) information for additional settings that may need to be modified prior to printing this report.

Bus Assignment Report

The Bus Assignment Report will print bus information for students in list or badge format. The report can be generated based on bus number or teacher. Transportation data that is active on the Transportation Effective Date will print. Printing by Bus Number will sort the data by student, with page breaks between each bus. Printing by teacher will sort the data by bus, with page breaks between each teacher. For best printing results use Avery 74541 badges and set Page Scaling to "None" in Acrobat Reader.

Report Logic

This report will print student transportation data entered on the [Transportation](#) tab as of the entered **Transportation/Enrollment Effective Date**. Only students who have active transportation records on the entered date will be included with the data from the transportation record active on that date.

Bus information looks first for the bus number, then a bus ID (internal identification number) for proper grouping.

Report Editor

The following information details the available options on the Student Bus Assignment Report.

Option	Description
Print Selection	<p>This report can be printed by Bus Number (sorted by student) or by Teacher (sorted by bus). When generating by Bus Number, select a specific bus number from the dropdown list, or leave the selection at All Buses.</p> <p>When generating the report by Teacher, select a specific teacher or leave the selection at All Teachers. Further sorting can be done by choosing a Period and a Period Schedule.</p> <p>Also enter a Transportation/Enrollment Effective Date in <i>mmdyy</i> format. This date is defaulted to the current date and will cause the report to only include students who are actively enrolled and have a transportation record as of the entered date.</p>
Bus Information	<p>This report can print In bus Information or Out bus Information as desired. In addition, Late Bus information can also be marked for inclusion on the report. Select the desired option.</p>
Report Options	<p>Determine how the report prints - in a List or as Badges. When printing as a badge, select options to include student pictures and to skip the printing of page breaks. Page breaks are inserted between buses when printing by bus, or between teachers when printing by teachers, unless the Skip Page Breaks options is selected.</p> <p>Also, determine if the report should include homeroom teachers and the students' grade levels.</p> <p>Then, choose how the report prints by selecting either PDF or DOCX from the Report Format field.</p>
