

# Online Payments: Key Concepts

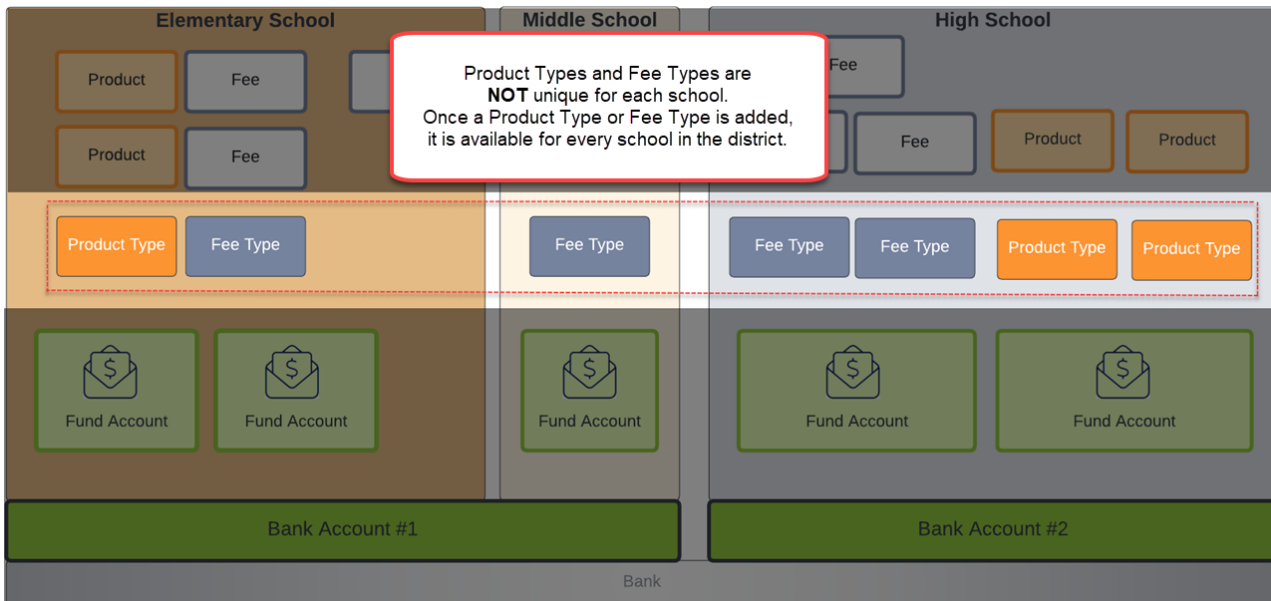

Last Modified on 10/22/2022 10:07 am CDT

This article describes the key concepts and tools used for Online Payments, the [School Store](#), and [Fees](#). The following image represents the relationship between these tools. This article takes a closer look at these tools and explains each tool in detail.

## Product Types and Fee Types | Products and Fees | Fund Accounts | Bank Accounts

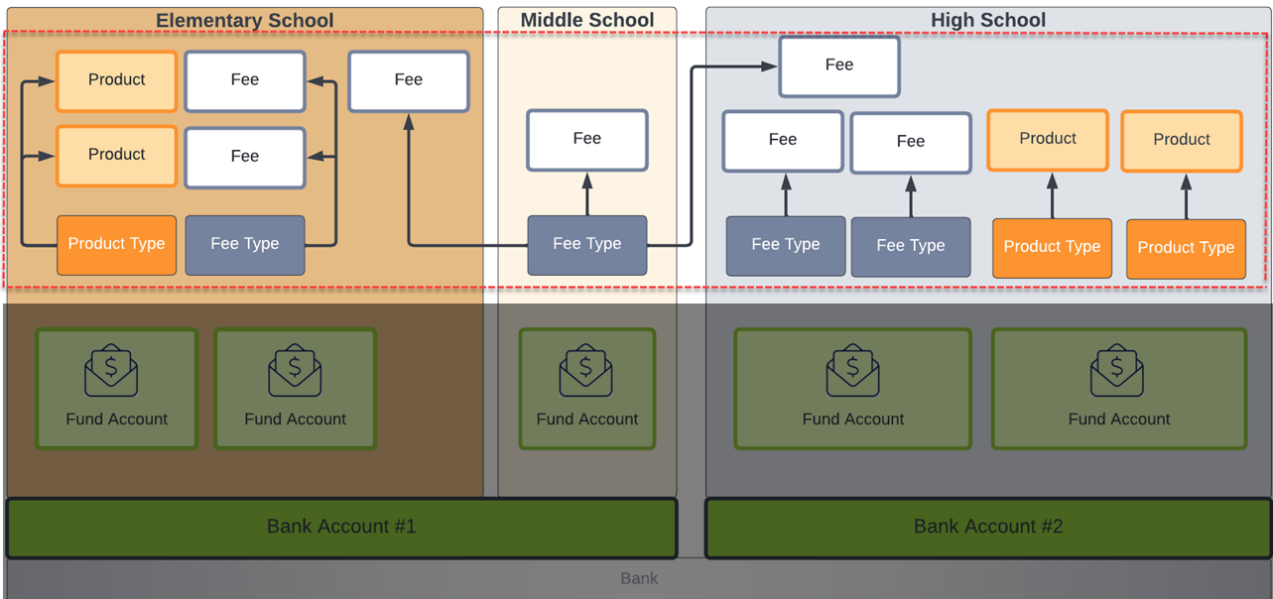

### Product Types and Fee Types

Concept	Description
<b>Product Type</b>	Product Types are assigned to Products and to Fund Accounts. When a product is purchased, funds are deposited into the bank associated with the Fund Account to which you assigned the Product Type. Product Types are set up in <i>System Settings &gt; School Store &gt; Product Types</i> . ▶ <a href="#">Click here to expand...</a>
<b>Fee Type</b>	Fee Types are created and modified in the Fee Type dictionary in the <a href="#">Core Attribute Dictionary</a> : <i>System Settings &gt; Custom Data and Links &gt; Core Attribute/Dictionary</i> . Fee Types are assigned to Fees and Fund Accounts. Once a Fee Type is selected for a Fund Account, you cannot select the same Fee Type for a second Fund Account at the same school. ▶ <a href="#">Click here to expand...</a>

**Tip:** Product Types and Fee types are **not** unique for each school. Once a Product type or Fee type is added, it is available for every school in the district.

## Products and Fees

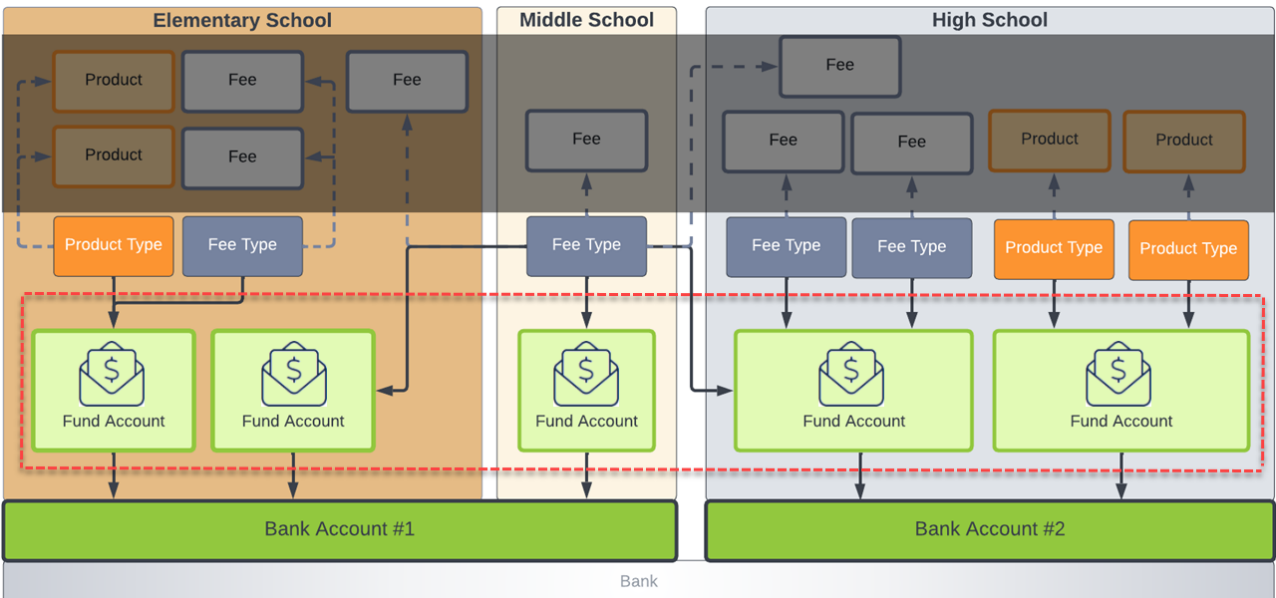

Concept	Description
<b>Product</b>	Products are items that you can sell in the <a href="#">School Store</a> or the <a href="#">Public Store</a> . Products are set up using the <a href="#">Product</a> progress tracker in <i>School Store &gt; Product Inventory &gt; General Product</i> . ▶ <a href="#">Click here to expand...</a>

Concept	Description
<b>Fee</b>	Fees are any amount of money that needs to be paid. Fees are created and maintained by each school independently; however, there may be some fees that are entered and maintained by the district. Fees are set up in <i>Fees &gt; Setup &gt; Fees</i> . <a href="#">▶ Click here to expand...</a>

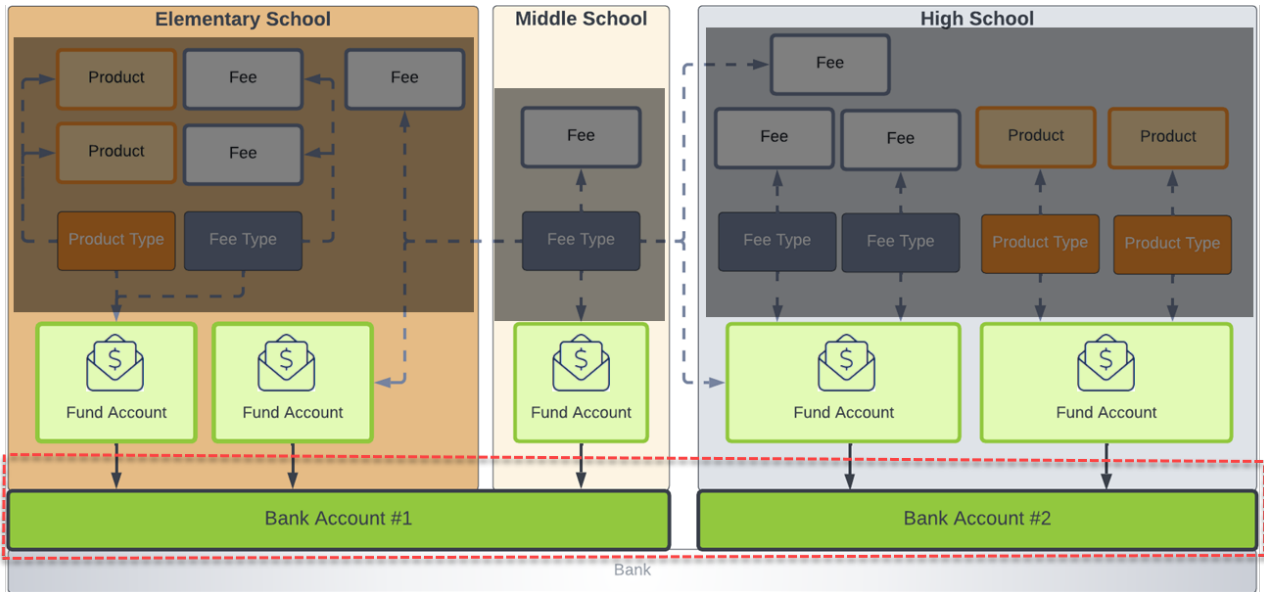

**Tip:** Product Types can be assigned to multiple Products and Fee Types can be assigned to multiple Fees.

### Fund Accounts

Concept	Description
<b>Fund Account</b>	Fund Accounts identify which bank account is used for each Fee and/or School Store Product. Fund Accounts are set up in System Settings > Payments > Payments Setup. <a href="#">▶ Click here to expand...</a>

### Bank Accounts

Concept	Description						
<b>Bank Accounts</b>	<p><b>Bank Accounts</b> inform the payment vendor and Campus Payments which transactions apply to which bank account. In Campus Payments, the Bank Account ID is the unique district-defined name used to distinguish different accounts. Districts are encouraged to create account names which describe the bank account's owner, location, or department; e.g., District, Elementary School, Food Service, etc.</p> <p>Bank Accounts can be owned by the district or by individual schools. If a Bank</p>						
	<table border="1"> <thead> <tr> <th>If the Bank Account is owned by the...</th> <th>Then...</th> </tr> </thead> <tbody> <tr> <td><b>District</b></td> <td>schools cannot select the bank account when setting up Fund Accounts.</td> </tr> <tr> <td><b>School</b></td> <td>you can select which school(s) are assigned to the bank account.</td> </tr> </tbody> </table>	If the Bank Account is owned by the...	Then...	<b>District</b>	schools cannot select the bank account when setting up Fund Accounts.	<b>School</b>	you can select which school(s) are assigned to the bank account.
	If the Bank Account is owned by the...	Then...					
<b>District</b>	schools cannot select the bank account when setting up Fund Accounts.						
<b>School</b>	you can select which school(s) are assigned to the bank account.
