

Multi-Language Editor

Last Modified on 10/22/2022 10:08 am CDT

This documentation applies to both versions of Online Registration.

Classic View: System Administration > Data Utilities > Multi-Language Editor

Search Terms: Multi-Language Editor

The Multi-Language Editor allows districts to establish the language in which Student Registration tools display on the Campus Portal and provide translation for those languages.

The following tools are available:

- [Language Groups](#)
- [OLR Literals Bank](#)
- [OLR Lists Bank](#)

Certain browser add ons might be necessary to properly display languages.
