A report card summarizes a student’s progress throughout a school year. Schools can generate report cards for each term within their calendar. Campus provides a standard report card format that will print, or schools can create a report card with the available options. This saved report card is available for selection from the [Report Card Batch Report](#) and from the student's [Grades](#) tab.

A Standards-Based Report Card lists the grade report by the Standards of Learning and/or Grading Tasks. Report cards can also be generated by Grading Tasks. See the [Conventional Report Card](#) article for more information.

Report Setup - Standards Based Report Card

Create a Report Card

1. From the **Reports** tab, select the **New** icon. The **Report Detail** and **Report Options** editors

will appear below.

2. Enter a **Name** for the report card being created. This name can be up to 50 characters in length.
3. Select the **Report Card** option from the **Type** dropdown list.
4. Determine whether or not this report should be available in Campus Instruction and in Campus Parent/Campus Student. If so, mark the **Instruction** and **Portal** checkboxes for **Available In**. See the [Report Setup](#) article for information on these options; see the [Report Cards \(Instruction\)](#) article for more information when marking the Instruction checkbox.
5. If desired, enter a **Description** for this report. This description can be up to 200 characters.
6. Select all appropriate **Report Options**. For more information on each option, as defined below.
7. Click the **Save** icon when finished. Once saved, the report will appear in the **Report Editor** and can also be selected on the **Report Card** in the **Grading and Standards Reports** section.

Report Options

The following options are available for a Standards-Based Report Card and assumes the **Report Type** chosen is **Standards-Based Report Card**.

Standards Display Options

Selection determines how the selected standards report associated scores.

Option **Description**

Grades for Selected Terms

Only scores for the selected terms print on the report card.

Mark the Schedule Structure and Term, and then mark the desired Term checkboxes (Term Q1, Term Q2, etc.).

The name of the first checkbox depends on the name of the calendar Schedule Structure and Term Schedules. This could be *Main - Terms*, *Main - Grading Periods*, or another name schools use for terms.

At least one term must be selected in order to have the report display in the dropdown list for selection on the student Grades tab.

- To print scores for all terms, mark all checkboxes for the terms.
- To print scores for individual terms, mark the names of those terms only.

Best Score Only

Only the best score for each selected grading task or standard prints on the report card. This looks at the selected grading tasks/standards across all terms. If a student is graded on a standard in the first term and the third term, and the student received a higher score for the standard in the third term, that score prints.

Attendance Summary

Selections indicate how the attendance information displays on the report card. To include Attendance information, first mark the **Attendance Summary** checkbox, then mark the terms to include.

When only one term is selected, no Total column of attendance events prints; a total column only prints when more than one term is selected. The Daily Exact Attendance Summary does not respect this logic as it uses a legacy custom template that was already in place

Attendance entered for non-instructional periods and courses not marked for attendance do NOT appear on the report card.

Information in the letter sub-reports uses data stored in the AttendanceDayAggregation table. This means that attendance data for the current date is accurate as of the previous night's attendance calculation, or the last time the Attendance Aggregation Refresh was run. If needed, the [Attendance Aggregation Refresh](#) tool can be run to force an attendance recalculation to pull in the current day's data.

Select Terms

Select the terms for which to print attendance.

If only one term is selected (first image), the report card does not print a total column.

If more than one term is selected, a Total column prints, in addition to the selected terms.

Class Rank

Class Rank Class Rank is the student’s placement in the class and is based on transcript scores.

with Bonus Points Printing the class rank with bonus points changes the student's ranking in the grade level.

Bonus points are awarded at the score/mark level of a particular course. Students receive bonus points based on the score earned (e.g., an “A” may receive a bonus point, whereas a “C” may not). See the Using Bonus Points section of the GPA Calculations article for more information.

When bonus points are marked to print with the GPA, the Class Rank should also include bonus points.

Description

If the student is not included in class rank calculations or if the settings of the report card do not allow the class rank calculation to occur, the printed report card reads *Excluded* instead of a ranking (a rank appears as 5 of 250, where the student is rank as number 5 in a class of 250 other students included in the class rank calculation).

If the class rank option is not selected, the column for Class Rank does not appear.

Period

This selection adds the period number or name before the list of courses in which the student is enrolled, much like schedule information prints.

Because course information doesn't display on Standards Based Report Cards, this option does not apply.

Score Comments

A teacher has the ability to enter grades for the grading task and scores for the standards, as well as comments related to that grade/score or to the student's behavior, etc. This option displays the comment on the report card for the selected terms.

Mark the option to print **Score Comments** and then select the terms for which to print the comments. If no terms are selected, no comments print.

Legal Name

Option

Description

When selected, the student's legal first name, legal middle name, legal last name and legal suffix print if entered in the [Protected Identity](#) information and if the user has [tool rights](#) to Protected Identity Information (users need at least Read rights to Protected Identity Information).

The Effective Date on the Identity Record is not considered when printing the Protected Identity information on a report card. As long as the those protected identity fields are populated on the current Identity record, the legal first/last/middle/suffix values print.

When the legal first name or legal last name is not populated or if the user does not have tool rights to this information, the student's first name and last name reports from the First Name and Last Name fields on the student's current Identity record.

The screenshot shows the 'Identities Editor' interface for a student named Paisley L. Student. The 'Protected Identity Information' section is highlighted with a red box and contains the following fields:

Legal Last Name	Legal First Name	Legal Middle Name	Legal Suffix
Student	Yelsaip		
Legal Gender			
Female			

Other visible fields in the editor include: *Last Name (Student), *First Name (Paisley), Middle Name (Lynn LaFae), Suffix, *Gender (F: Female), *Birth Date (Age: 14) (04/05/2007), and Soc. Sec. Number (Show) (XXXXXXXXXX).

When the **Portal - Active** checkbox is marked on the Report Detail editor AND the Legal Name option is marked, the Report Card prints the student's Legal Name on the report card that is generated from Campus Student or Campus Parent.

Term GPA

This number reflects the grades given for the term and does not use transcript information to calculate. This can also be displayed with bonus points.

See the [GPA Calculations](#) article for detailed information on the calculations used to find GPA.

Option **Description**

**Weighted,
Unweighted**

This value is the student's average of scores within a specified term.

Points**

Printing the Term GPA with Bonus Points changes the student's GPA.

Bonus points are awarded at the score/mark level of a particular course. Students receive bonus points based on the score earned (e.g., an "A" may receive a bonus point, whereas a "C" may not). See the Using Bonus Points section of the GPA Calculations article for more information.

Mailing Label Options

Report cards can be printed for mailing or printed for handing out in class. They can also be printed with or without being addressed to the student's parent/guardian.

Option	Description
Student's Primary Household Only	Prints report cards for the student's primary household. Any individual in that household or related to that household who is marked for mailing on the relationship receives a report card. Household addresses can be primary or secondary.
No Mailing Label	Prints the report card without an address. This can be used to hand out report cards in class. This should not be marked if the other mailing label options are marked.
Recipient Names	Prints the actual names of the individuals receiving the report card, instead of <i>To the parent/guardian of</i> . Names print in the first two lines of the address with first and last names.

Grading Tasks and Standards

All items on which the student is graded display in the Grading Tasks list, whether they are Grading Tasks or Standards.

Option	Description
	<p>Grading Tasks and Standards are assigned to Courses and are used to assign students a grade in the appropriate Course Section. Grading Tasks are usually term based and are posted at the end of a term (Quarter, Semester, etc.). Schools could also have Process Grades or Weekly grades. All of these tasks can be selected to display on the report card.</p> <p>Depending on the needs of the school, there may be one report card per grading term. Or, there could be a report card for the end of the semester and which only lists the semester grades.</p> <p>Standards are skills the student must learn throughout the course of the year and determine the student's success in the given course and/or grade level. Skills like reading at grade level or comprehends written material are considered standards and vary from district to district.</p> <p>Standards and grading tasks are assigned a Term Mask at the Course Level, indicating when that standard is graded. If a grading task or standard is not marked for a certain term (for example, the standard is only graded for Terms 2 and 4), the printed report card displays those term boxes in shaded gray coloring, indicating the standard is not scored during that term. See the last image in this article for more information.</p> <p>When the Report Card does NOT have ALL TERMS selected in the Grades for Selected Terms in the Standards Display Options AND there is a Standard Group where none of the child standards are assigned a Term Mask for the selected term, the Standard Group DOES NOT display on the Report Card. For example, a report card is set to display for Term 1 that includes a Standard Group with child standards A, B, C, and D. A, B, and C have the Term Mask set to Term 4, while D has the Term Mask set to Term 3. In this situation, the whole Standard Group does not print in that report card. When the report card is set to display for Term 3, however, the Standard Group does display, with the boxes for A, B, and C grayed out.</p> <p>When printing, standards that have long names are formatted to wrap to the next line in the column and are formatted to stay within the same column (so the entirety of the standard name stays together).</p> <p>When a standard is associated and graded with more than one course, the name of the course and course section in which the student met the standard prints with that standard.</p> <p>Grading tasks only print when they are associated to a Credit Group and Credit Type.</p>

Option	Description																																																																												
<p>Select all grading tasks</p>	<p>This option prints each grading tasks/standard to the report card that is assigned to a course in which the student is enrolled. If there is no score given to the student for the standard, the fields are blank.</p> <p>Standards display on the report card in Standard Group Name order. Score Groups/Rubrics

Option

Description

Select the score groups and rubrics to print on the report card. This option prints what letter grade is associated with what point value or percentage. Options are also available to print the GPA values associated with the scores.

Multiple score groups and rubrics can be selected.

	Term			
	Q1	Q2	Q3	Q4
OPERATIONS AND ALGEBRAIC THINKING				
REPRESENT/ SOLVE ADDITION AND SUBTRACTION PROBLEMS				
Solve addition story problems with 3 numbers up to 20 with an unknown				
Solve addition/subtraction word problems up to 20 using various strategies				
UNDERSTD/APPLY PRPTIES OF OPRTRS & RLTHSP BTWN +/-				
Use addition facts to solve subtraction problems				
Use strategies to solve add/sub problems using properties				
ADD AND SUBTRACT WITHIN 20				
Fluently add and subtract up to 10				
Relate counting to addition and subtraction				
WORK WITH ADDITION AND SUBTRACTION EQUATIONS.				
Find the missing number in an addition or subtraction problem				
Use the equal sign to determine if equations are true or false				

	GEOMETRY			
	Term			
	Q1	Q2	Q3	Q4
NUMBERS AND OPERATIONS				
EXTEND THE COUNTING SEQUENCE				
Count to 120 starting from any given number				
Read, write and represent a number of objects with a written numeral				
UNDERSTAND PLACE VALUE				
Compare two two-digit numbers using symbols >, <, =				
Identify tens and ones in any two-digit number				
USE PLACE VALUE & PROPERTIES OF OPERATIONS TO +/-				
Mentally find 10 more/less than any two-digit number and explain reasoning				
Use concrete models to add within 100				
Use objects/drawings to explain
