Object Triggering Logic

This table describes logic for triggering syncing of this object.

Action	Trigger
Post	 When a staff is added to a course section on Staff History. Must have a Staff Type of P: Primary Teacher or T: Teacher in the Section Staff History Table. Do not send records if the Calendar Exclude check box is checked. Do not send a record if the Course is marked Inactive. Must have a role mapped to an Ed-Fi code populated to report. Do not report a record if the Staff does not have an Ed-Fi ID. Do not report if the course is in a school marked as exclude. Do not report a record if the Staff's District Assignment record for the reporting School does not overlap the scope year the section is aligned to. Do not send a record if the State Reporting Exclude checkbox is selected on the course. Only send a record for sections in which staff have an overlapping section staff history record: 1. Only post for session names where the start date of the term is on or before the section staff history end date or the section staff history end date is null. 2. Only post for session names where the end date of the term is on or after the section staff history start date or the section staff history start date is null.
Post	When a Role mapped to an Ed-Fi code is added to an existing teacher on the Staff History Record.
Put	When Start or End dates are modified on the Staff History.
Post/Delete	If the start or end dates are modified on the District Assignment record or the District Assignment Record is Deleted or Added and the staff is still aligned to the section.
Delete	When a staff member is deleted from Staff History.
Delete	When a Role is removed from a Teacher on Staff History

Resync	If a record is in the Ed-Fi Identity Mapping table and not in the ODS, it will be deleted from the Ed-Fi Identity Mapping table.
Resync	If a record is in the ODS and it does not have a matching record in Campus or the Ed-Fi Identity Mapping table, it will be deleted from the ODS.
Resync	If a mapping is changed in Resource Preferences, a resync will need to be done to reflect the changes.
