PATH: *Student Information > Reports > Test Accommodations Report*

The **Test Accommodations Report** lists special accommodations and modifications provided for students receiving Special Education services, such as more time or more breaks, to complete tests.

Test Accommodations Report

Report Logic

The report looks for locked IEPs that include a record in the Adaptations for Assessments Editor. Data entered for the following sections on that editor report:

- Norm-Referenced
- AIMS
- District Administered
- Accommodations

The statements associated with the selected checkmark will be printed for Norm-Referenced, AIMS

and District Administered. Information entered in the Testing Accommodations text box will print as part of the Accommodations text.

The screenshot shows the 'Adaptations For Assessments' form. The left sidebar lists various sections, with 'Adaptations for Assessments' selected. The main content area is divided into three assessment types, each with a 'Content Area/Grade Level' section and a table of testing options. The 'Testing' table has columns for 'Test', 'Norm-Referenced AIMS', and 'District Admin.'. The 'Testing Accommodations' text box at the bottom contains the text 'no time limit allowed to break'.

IEP Accommodation Entry

Report Editor

The following fields are available for entry:

Field	Description
Start Date	First date used to report accommodation information. This is a required entry. Dates are entered in <i>mmddyy</i> format or can be chosen by selecting dates from the calendar icon.
End Date	Last date used to report accommodation information. This is a required entry. Dates are entered in <i>mmddyy</i> format or can be chosen by selecting dates from the calendar icon.

Field	Description
Students	Lists those who have a locked plan within the school year selected in the Campus toolbar. This list includes the student's name, student number and grade level.
Sort By	The report can be printed alphabetically by Student Name , Case Manager Name or numerically by Grade level (lowest grade level prints first).
Print in HTML Format	When marked, the report prints in HTML format, instead of the standard PDF format.

Generating the Test Accommodations Report

1. Enter the **Date Range** for the report.
2. Select which **Students** to include in the report.
3. Select the desired **Sort By** option.
4. If the report should print in HTML format, mark the **Print in HTML Format** checkbox.
5. Click the **Generate Report** button. The report displays in a new browser window in the selected format in Student Name order.
