Search Terms: CELDT Pre-ID Extract

The CELDT (California English Language Development Test) extract is generated to request Pre-ID labels for students who are English Language Learners. The reporting group is any K-12 student in the requested calendar(s) who is enrolled on the effective date (and who has a start date after the "enrolled after" date if that is chosen).

CELDT Pre-ID Extract

Because the CELDT Pre-ID extract reports previous test scores, it is critical that these tests be set up correctly in the Assessment Test editor prior to generating these extracts. See the [Assessment Setup for CELDT](#) page for more information.

Students marked as Student Exclude on their enrollment record, or enrolled in a Grade Level marked State Exclude, or in a school marked as State Exclude are not reported.

Report Logic

This extract reports any student in grades KN-12 in the selected calendar(s) who is enrolled on the Effective Date (and who has a start date after the Enrolled After date if that is selected) and who has a Program Status of Pending and an Identified Date or Enrollment Start Date on or before the Effective Date.

Only those students who have an EL record in pending status and who have not previously taken the CELDT are included.

Students marked as State Exclude, in a grade level marked as State Exclude or in a school marked as State Exclude do not report. The report only includes the current identity of the student when more than one identity exists.

Tests with a State Code of 105 and Subject Codes of the following are included:

- 158: Listening
- 177: Overall Comprehension
- 187: Reading
- 231: Speaking
- 491: Writing

Extract Editor Details

The following describes each field of the dates section.

Field	Description
Effective Date	Students with an active enrollment as of this date are included in the extract. Dates can be entered in <i>mmddyy</i> format or clicking the calendar icon and selecting a date.
Only Report Students Enrolled After	Only students who enrolled within the selected calendar(s) on or after this date are included in the extract. Dates can be entered in <i>mmddyy</i> format or clicking the calendar icon and selecting a date. This is NOT a required field.
Ad hoc Filter	Filters reported data based on preexisting Ad hoc filters.
Format	The format of the generated extract. When submitting to the state, use the State Format (Fixed Width).
Testing Date	This field indicates the date the test is administered. Dates can be entered in <i>mmddyy</i> format or clicking the calendar icon and selecting a date.
Legal Name and Gender	When marked, a student's legal name and legal gender information report (entered in the Protected Identity Information section on the Identites tool), instead of the name and gender entered in the Person Information section. If this checkbox is marked and the student does not have legal name and gender information populated, the student's name report from the name and gender fields.

Field	Description
Delivery Homeroom	If selected, the teacher's name and course section number for the student's homeroom course is reported on the extract.
Delivery Period	If selected, the teacher name and course section number for the student's course in that period report. If the student is not enrolled in a course during this period on the Testing Day, the field reports a blank value. Options for periods are limited to only those period names in the active year.
Grades	Designates which grades have information pulled on the extract.
Calendar Selection	Users must select at least one calendar in order to generate a Pre-ID Extract. Multiple calendars can be selected by using the CTRL and SHIFT keys. Users are advised to limit the number of calendars selected as it impacts overall system performance.
Report Generation	Use the Generate Report button to display the results of the report immediately. Use the Submit to Batch button to choose when the report should generate.

Generate the Report

There are two Delivery fields on this editor - **Delivery Homeroom** and **Delivery Period**. Neither of these fields are required for the report generation; however, if choosing to select one, only choose one or the other. For example, if the Delivery Homeroom selection **is made**, the Delivery Period selection **would not be made**.

1. Enter the **Effective Date** in *mmdyy* format or by clicking the calendar icon and selecting a date.
2. Enter the **Only Report Students Enrolled After** (if applicable) in *mmdyy* format or by clicking the calendar icon and selecting a date.
3. Select an **Ad hoc Filter**, if applicable.
4. Select a **Format**. When submitting the extract to the test vendor, use the State Format (Fixed Width).
5. Enter a Testing Date.
6. If a student's legal name and gender should report, leave the **Legal Name and Gender** checkbox marked. Otherwise, remove the checkmark.
7. Mark the **Delivery Homeroom** checkbox, if desired. Marking this checkbox includes the teacher's name and course number of the student's homeroom course on the extract.
8. Select a value from the **Delivery Period** list, if desired. Choosing a value in this field includes the teacher name and course section number for the student's course in that period on the extract.
9. **Select a** value from the **Grades** list if desired.
10. Select which **Calendar(s)** to report on the extract.
11. Click the **Generate Extract** button. The extract displays in a separate window in the designated format.

Data Elements for the CELDT Extract

Element Name	Description	Type, Length and Format	Starting Position	Campus Database	Campus Application
Test Program ID	Test Program ID This field is chosen on the extract editor. 7 reports for CELDT.	Alphanumeric, 1 character	1	Not dynamically stored	Not dynamically stored

Element Name	Description	Type, Length and Format	Starting Position	Campus Database	Campus Application
County/ District Code	Reports the State District Number associated with the reporting school. This field reports the Secondary District Number when the reporting calendar has a School Type of 16: Secondary State District Number.	Numeric, 7 digits	2	District.code School.type	System Administration > Resources > District Information > State District Number System Administration > Resources > School > Type
Filler 1	N/A	Blank, 2 spaces	9	N/A	N/A
School Code	Reports the State School Number associated with the reporting school. If the CDS Number field is populated on the School editor, that value reports.	Alphanumeric, 7 characters	10	School.number	System Administration > Resources > School > State School Number System Administration > Resources > School > CDS Number

Element Name	Description	Type, Length and Format	Starting Position	Campus Database	Campus Application
Test Purpose	<p>Indicates the reason for the test.</p> <p>This field reports 1 for Initial Identification if the student has no previous CELDT scores.</p>	Numeric, 1 digit	17	assessment. score	Student Information > General > Assessments > Test Score Detail > State Code
Delivery Name	<p>If Delivery Homeroom is chosen, report the Teacher Name from the Course Section that is checked as Homeroom. This course/section must be on the Testing Day.</p> <p>If a Delivery Period is chosen, report the Teacher Name from the Course Section in which the student is scheduled for that period on the Testing Day.</p>	Alphanumeric, 20 characters	18	Course.number	Course > Section > Homeroom, Display Name

Element Name	Description	Type, Length and Format	Starting Position	Campus Database	Campus Application
Delivery Code	<p>If Delivery Homeroom is chosen, report the Course-Section number from the Course Section that is checked as Homeroom. This course/section must be on the Testing Day.</p> <p>If a Delivery Period is chosen, report the Course-Section number from the Course Section in which the student is scheduled for that period on the Testing Day. If the student does not have a course section marked as Homeroom or scheduled during the chosen period, this reports blank.</p>	Alphanumeric, 10 characters	38	Course.number	Course Number > Section Number

Element Name	Description	Type, Length and Format	Starting Position	Campus Database	Campus Application
Grade	Grade in which student is enrolled. Reports student in grades KN-12 only; grade level KN reports as 00	Alphanumeric, 2 characters	48	Enrollment. grade	Student Information > General > Enrollments > General Enrollment Editor > Grade
Last Name	Student's legal last name	Alphanumeric, 11 characters	50	Identity.lastName Identity.legalLastName	Census > People > Demographics > Person Information > Last Name Census > People > Demographics > Protected Identity Information > Last Name
First Name	Student's legal first name	Alphanumeric, 9 characters	61	Identity.firstName Identity.legalFirstName	Census > People > Demographics > Person Information > First Name Census > People > Demographics > Protected Identity Information > First Name

Element Name	Description	Type, Length and Format	Starting Position	Campus Database	Campus Application
Middle Initial	Student's middle initial	Alphanumeric, 1 character	70	Identity. middleName Identity.legalMiddleName	Census > People > Demographics > Person Information > Middle Name Census > People > Demographics > Protected Identity Information > Middle Name
Student ID	Student's ID number assigned by the school or district	Alphanumeric, 10 characters	71	Person.student Number	Census > People > Demographics > Person Identifiers > Student Number
DOB Month	Month of birth	Numeric, 2 digits MM	81	Identity.birthDate	Census > People > Demographics > Person Information > Birth Date
DOB Day	Day of birth	Numeric, 2 digits DD	83	Identity.birthDate	Census > People > Demographics > Person Information > Birth Date
DOB Year	Year of Birth	Numeric, 4 digits YYYY	85	Identity.birthDate	Census > People > Demographics > Person Information > Birth Date

Element Name	Description	Type, Length and Format	Starting Position	Campus Database	Campus Application
Gender	Indication of student being either male or female	M or F, 1 character	89	Identity.gender Identity.LegalGender	Census > People > Demographics > Person Information > Gender Census > People > Demographics > Protected Identity Information > Gender
State ID	State-assigned Student Identifier	Numeric, 10 digits	90	Person.stateID	Census > People > Demographics > Person Identifiers > State ID
Filler 2	N/A	Blank, 8 spaces	100	N/A	N/A
Local Use	N/A	Blank, 10 spaces	131	N/A	N/A
Filler 3	N/A	Blank, 40 spaces	141	N/A	N/A
Address Line 1	Reports the student's primary address house number, street name, tag, direction and PO Box is available.	Alphanumeric, 30 characters	181	Address.number Address.street Address.PObox Address.tag Address.direction Address.apt	Census > Households > Address

Element Name	Description	Type, Length and Format	Starting Position	Campus Database	Campus Application
Address Line 2	Reports any additional address information from the previous field if it overflows to a second line.	Alphanumeric, 30 characters	211	Address.number Address.street Address.PObox Address.tag Address.direction Address.apartment	Census > Households > Address
Address City	Reports the city from the student's Primary Address.	Alphanumeric, 20 characters	241	Address.city	Census > Households > Address > City
Address State	Reports the state from the student's Primary Address.	Alphabetic, 2 characters	261	Address.state	Census > Households > Address > State
Address Zip	Reports the zip code (plus 4 if available) of the student's Primary Address.	Numeric, 9 digits	263	Address.zip	Census > Household > Address > Zip
