[Report Logic](#) | [Report Editor](#) | [Generate the Behavior Attendance Audit Report](#) | [Behavior Attendance Audit Report Layout](#)

**Classic View:** CO State Reporting > CO Behavior Attendance Audit

**Search Terms:** Colorado Behavior Attendance Audit

The Behavior Attendance Audit Report identifies students who have behavior resolutions not linked to an entry in their attendance record or have specified attendance codes not covered by a behavior resolution. If attendance modification from Behavior Management has been enabled, the Behavior Attendance Audit report displays instances where an attendance record was created from a behavior resolution.

Three specific sub-reports are included:

- [Behavior Resolutions without a selected Corresponding Attendance Code](#)
- [Attendance without any corresponding Behavior Resolutions](#)
- [Attendance created from a Behavior Resolution](#)

The screenshot shows the user interface for the 'CO Behavior Attendance Audit Report'. At the top, there is a green header with the Infinite Campus logo and a hamburger menu icon. Below the header, the page title is 'CO Behavior Attendance Audit Report ☆' with a breadcrumb trail: 'Reporting > CO State Reporting > CO Behavior Attendance Audit Report'. A dark blue banner contains the report title 'CO Behavior Attendance Audit Report'. Below this, a text box explains the report's purpose and lists three sections: 'Behavior Resolutions without a selected corresponding Attendance Code', 'Attendance without any corresponding Behavior Resolution', and 'Attendance created from a Behavior Resolution'. The interface includes a 'Select Dates' section with a 'Date Range' radio button and two date pickers. An 'Exclude' section has an unchecked checkbox for 'Non-Instructional Periods'. The 'Select Students' section has a 'Grade' radio button selected, with a dropdown menu showing options 'All Students', '09', '10', '11', and '12'. There is also an 'Ad Hoc Filter' radio button and a text input field. At the bottom, there is a section for 'Select Resolution Types and Attendance Codes'.

*Colorado Behavior Audit Attendance Report*

This article is specific to Colorado districts. It has similar functionality and layout as the [Behavior Attendance Audit Report](#) available in Behavior Reports and Attendance Reports, but includes additional fields required in Colorado.

## Report Logic

Students who have **Behavior Resolutions without a selected corresponding Attendance Code** are included in the report when:

- The student has one or more of the selected behavior resolutions.
- The behavior resolution start or end date falls between the date range specified or within the School Month specified.
- The student does not have one or more of the selected attendance codes in every scheduled period with an attendance-taking course during the time of the behavior resolution.
  - Start and End times of the resolution are considered. If the resolution begins at 1pm, the student only needs to have an attendance record in periods from 1pm to the end of the day.

- Roster start and end times are considered. The student does not need to have attendance in a period for a course-section that has been dropped or that starts in the future.
- Non-instructional periods are considered if there is an attendance-taking course in the period unless the Exclude Non-Instructional Periods option is selected on the report editor.

Students who have an **Attendance without any corresponding Behavior Resolution** are included in the report when:

- The student's attendance data has one or more of the selected attendance codes between the date range specified.
- There is not an attendance-linked behavior resolution between the date range specified.

Students who have **Attendance created from a Behavior Resolution** are included in the report when:

- The student has an attendance record created from a behavior resolution between the entered date range.
- The resolution type and attendance code were selected in the report options.

Resolution Types that are not active during the date range or school month selected are not included in reported data.

Behavior resolutions that start the last minute of a period or end the first minute of a period are ignored.

## Report Editor

The following fields are available for selection.

Field	Description
<b>Select Dates</b> <i>Required</i>	Enter a <b>Date Range</b> to return behavior/attendance data that occurred on or after the From date and on or before the To date. Dates are entered by typing in <i>mmdyy</i> format or by using the calendar icon to select a date.
<b>Exclude Non-Instructional Periods</b>	If marked, non instructional periods are excluded from reported data.  This option is not available for Kentucky users.

Field	Description
<b>Select Students</b>	<p>Students can be selected by choosing either a <b>Grade</b> level or a saved <b>Ad hoc Filter</b>.</p> <ul style="list-style-type: none"> <li>• If choosing a <b>Grade</b> Level, only those grade levels in the selected calendar are listed. All students (in all grade levels) can also be selected.</li> <li>• If choosing an <b>Ad hoc Filter</b>, only those students included in the filter are included in the report, assuming they meet other reporting logic and business rules.</li> </ul>
<b>Select Resolution Types and Attendance Codes</b>	<p>Determine which <b>Resolution Types</b> to include in the report:</p> <ul style="list-style-type: none"> <li>• <b>Flagged as attendance-related</b> - Only behavior resolutions with a resolution type marked as attendance-related are included in reported data.</li> <li>• <b>All resolution types</b> - All behavior resolution data is used for generating report data.</li> </ul> <p>Determine which <b>Attendance Codes</b> to include in the report:</p> <ul style="list-style-type: none"> <li>• <b>Flagged as behavior-related</b> - Only attendance records with attendance codes marked as behavior-related are included in reported data.</li> <li>• <b>All attendance codes</b> - All attendance data is used for generating report data.</li> </ul>
<b>Select a Report Type</b>	<p>Select which audit report to display:</p> <ul style="list-style-type: none"> <li>• <b>Behavior Resolutions without a selected corresponding Attendance Code</b> - This report generates a list of all students who have the selected behavior resolution(s) with an attendance code that does not match an attendance code selected on the report editor or with no attendance code at all.</li> <li>• <b>Attendance without any corresponding Behavior Resolution</b> - This report generates a list of students who have an attendance record with an attendance code matching the attendance code(s) selected on the report editor but the attendance record is not tied to a behavior resolution.</li> <li>• <b>Attendance created from a Behavior Resolution</b> - This report generates a list of all behavior resolutions which created an attendance record(s) within the Date Range or School Month selected on the report editor.</li> </ul> <p>Only one report type can be generated at a time.</p>

Field	Description
<b>Select a Print Sort Order</b>	Options for data sorting on the report are dependent on the options chosen for Display. <ul style="list-style-type: none"> <li>• If <b>Behavior Resolutions without a selected corresponding Attendance Code</b> is selected, sort options include Student Name, Date, Grade or Resolution Date.</li> <li>• If <b>Attendance without any corresponding Behavior Resolution</b> is selected, sort options include Student Name, Date, Grade or Attendance Code.</li> <li>• If <b>Attendance created from a Behavior Resolution</b> is selected, sort options include Student Name, Date, Grade, Resolution Type or Attendance Code.</li> </ul>
<b>Report Format</b>	All of the report types can be generated in either PDF or DOCX format.
<b>Report Generation</b>	Use the <b>Generate Extract</b> button to display the results of the extract immediately. If there is a larger data set being reported, use the <b>Submit to Batch</b> option to choose when the extract generates (after or before school hours, etc.). See the <a href="#">Batch Queue</a> article for more information.

## Generate the Behavior Attendance Audit Report

A calendar must be selected in the Campus toolbar in order to generate the report.

1. Select the students to include in the report by choosing a **Grade** level or an **Ad hoc Filter**.
2. Enter the desired **Date Range** or select the desired **School Months**.
3. Select the desired **Resolution Types** and **Attendance Codes** to include.
4. Select which **Report Type** to generate.
5. Select the desired **Print Sort Order**.
6. Select the desired **Report Format**.
7. Click the **Generate Extract** button or the **Submit to Batch** button. The report displays in the selected format.

See the images in the following section for examples of each report type.

## Behavior Attendance Audit Report Layout

[Behavior Resolutions without a Selected Corresponding Attendance Code](#) | [Attendance without any Corresponding Behavior Resolutions](#) | [Attendance Created from a Behavior Resolution](#)

The Behavior Attendance Audit Report is broken into three specific sub-reports.

## Behavior Resolutions without a Selected Corresponding Attendance Code

This report generates a list of all students who have the selected behavior resolution(s) with an attendance code that does not match an attendance code selected on the report editor.
