The Kindergarten Readiness Report provides a summary of each Kindergarten student's information, based on the fields selected on the Kindergarten Readiness tool. Data needs to be entered on the Kindergarten Readiness tool and the report needs to be generated within the first 60 days of the school year.

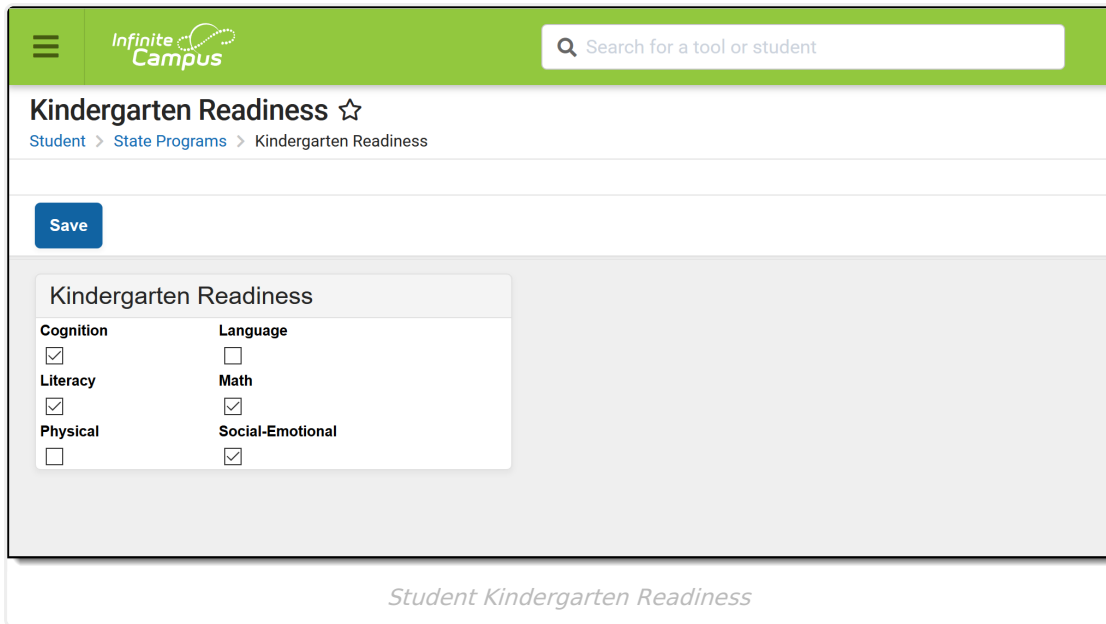

The screenshot shows the 'Kindergarten Readiness' tool interface. At the top, there is a search bar and the Infinite Campus logo. Below the title, there are navigation links: 'Reporting > CO State Reporting > Kindergarten Readiness'. A blue header bar contains the title 'Kindergarten Readiness'. Below this, a message states: 'This tool will extract the Kindergarten Readiness data.' The interface is divided into two main sections: 'Extract Options' and 'Select Calendars'. In the 'Extract Options' section, there are fields for 'Effective Date' (01/31/2020), a checkbox for 'Report using legal gender', an 'Ad Hoc Filter' dropdown, and a 'Format' dropdown set to 'CSV'. There are two buttons: 'Generate Extract' and 'Submit to Batch'. The 'Select Calendars' section asks 'Which calendar(s) would you like to include in the report?' with three radio button options: 'active year' (selected), 'list by school', and 'list by year'. Below these options, a red warning message states: 'Calendars marked as exclude are not listed. Excluded calendars will not be reported.' A scrollable list shows the following calendars for '19-20': 19-20 Abbott Elementary, 19-20 Bryant Elementary, Colfax Middle 19-20, Dupont Middle 19-20, Emerson High 19-20, and Franklin High 19-20.

## Report Logic

The report aggregates students by number of domains (options marked on the Kindergarten Readiness tool) and demographic data (student gender, eligibility, race/Ethnicity) for those students enrolled in **State Grades 006: Half Day Kindergarten** and **007: Full Day Kindergarten**.

Students are first grouped by each Kindergarten Readiness domain:

- **NONE** - students without any domains selected
- **PHYS** - students with the **Physical** domain selected
- **SOC** - students with the **Social-Emotional** domain selected
- **LANG** - students with the **Language** domain selected
- **COG** - students with the **Cognition** domain selected
- **MATH** - students with the **Math** domain selected
- **LIT** - students with the **Literacy** domain selected

Students are then grouped by Gender, Eligibility, and Race/Ethnicity for each Kindergarten domain.

## Report Editor

Field	Description
<b>Effective Date</b>	<p>This date is used to determine certain data eligibility. If a student has an enrollment start date that is after the entered effective date, a record is not reported for the student. If the student ends an enrollment prior to the effective date and the student has a Special Education Discipline Event, a record is reported for the student.</p> <p>The field is auto-populated with the current date, but can be changed by using the calendar icon to select a date or entering a new date in <i>mmddyy</i> format.</p>
<b>Report Using Legal Gender</b>	When marked, the student's gender reports from the Protected Identity Information section on the student's <a href="#">Identities</a> record.

Field	Description
<b>Ad hoc Filter</b>	Select a saved ad hoc filter to only include those students in the filter in the report, assuming those students meet the reporting logic and business rules of the report.
<b>Format</b>	Selection determines whether the extract generates in the CSV or HTML format.
<b>Calendar Selection</b>	<p>At least one calendar needs to be selected in order to generate the report. Calendars can be selected by the active year, by school name or by year.</p> <p>Only calendars that include the State Grade levels of 006 and 007 are available for selection.</p> <p>When a calendar is selected in the Campus toolbar, that calendar is automatically selected for the extract IF that calendar includes the State Grade levels mentioned above.</p>
<b>Report Generation</b>	The Student Layout extract can be generated immediately using the <b>Generate Report</b> button. Or, use the <b>Submit to Batch</b> button to select when the report is generated. See the <a href="#">Batch Queue</a> article for more information on this functionality.

## Generate the Report

1. Enter the desired **Effective Date**.
2. Mark the **Report using Legal Gender** checkbox, if desired.
3. If desired, select students from an existing **Ad hoc Filter**.
4. Select the **Format** of the report.
5. Select the **Calendar(s)** from which to report information.
6. Click the **Generate Extract** button or use the **Submit to Batch** button. The report displays in the desired format.
