

Student Interchange - Student Layout (Colorado)

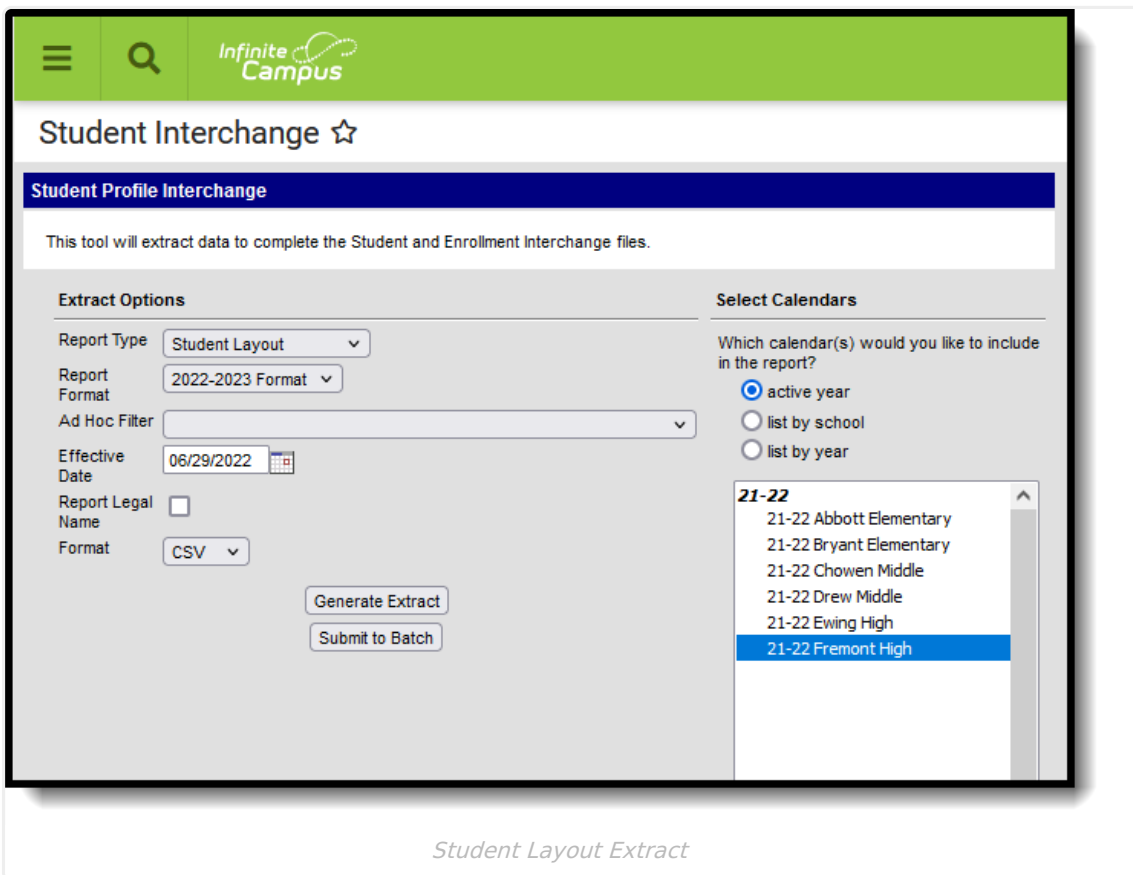

Last Modified on 10/22/2022 10:15 am CDT

[Report Logic](#) | [Report Editor](#) | [Generate the Report](#) | [Report Layout](#)

Classic View: CO State Reporting > Data Pipeline > Student Interchange > Student Layout

Search Terms: Student Interchange

The Student Layout Report (also referred to as Student Demographics) captures and verifies attributes of the student while the student was enrolled in the district for the selected school year. One record per student reports for enrollments at any point during the selected school year.

Report Logic

Students are not included in this report when:

- Enrollment records are marked as No Show
- Enrollment records are marked as State Exclude.
- Enrollment Grade Level has a Kindergarten Schedule mapped to 002: Infant.
- Grade levels are marked as State Exclude.
- Calendars in which the student is enrolled are marked as State Exclude.

Data reports from the most recent Primary enrollment as of the entered Effective Date. If a student has more than one primary enrollment, the latest start date is used. If the start dates are the same, the enrollment with the highest enrollment ID is used.

- If a student has no active primary enrollment, data reports from most recent enrollment.
- If the student has multiple active primary enrollments in the same school, data reports from the latest start date. If the start dates are the same, the enrollment with the highest enrollment ID is used.
- If the student has multiple active primary enrollments in different schools, a record reports for each primary enrollment in each school if schools are selected individually for reporting. If all schools or each school is selected at the same time, one record reports. Users need to decide what enrollment should report or select every school of enrollment for one record to generate.
- If the student's first enrollment start date is AFTER the effective date entered in the extract editor, the student does not report.

Report Editor

Field	Description
Report Type	Selection determines the Student Interchange report that generates. Choose Student Layout .
Report Format	Selection indicates which layout of the report generates. When choosing a 2021-2022 calendar, choose the 2021-22 Format . When choosing a 2022-2023 calendar, choose the 2022-2023 Format .
Ad hoc Filter	Select a saved ad hoc filter to only include those students in the filter in the report, assuming those students meet the reporting logic and business rules of this report.
Effective Date	The entered date is auto-populated with the current date and is used to report eligibility status for FRAM and ESL programs, and to verify the student's enrollment start date is after the effective date, as detailed in the Report Logic section.
Report Legal Name	When marked, the student's name and gender report from the Protected Identity Information section on the student's Identities record.
Format	The Student Layout report can be generated in either CSV or HTML formats.
Calendar Selection	At least one calendar needs to be selected in order to generate the report. Reports can be selected by Active Year, School or Year.
Report Generation	The Student Layout extract can be generated immediately using the Generate Report button. Or, use the Submit to Batch button to select when the report is generated. See the Batch Queue article for more information on this functionality.

Generate the Report

1. Select the **Student Layout** option from the **Report Type** field.
2. Select the correct **Report Format**.
3. If desired, select students from an existing **Ad hoc Filter**.
4. Enter the desired **Effective Date**.
5. Mark the **Report Legal Name**, if desired.
6. Select the **Format** of the report.
7. Select the **Calendar(s)** from which to report information.
8. Click the **Generate Extract** button or use the **Submit to Batch** button. The report displays in the desired format.
