The Enrollment tool displays all occurrences of a student’s enrollment in the district. Because this is an historical view, this list could be long.

By default, enrollments are first sorted by grade level and sorted by enrollment start date second. To reorder the list of enrollments, click the blue headers in the Enrollments Editor list. The list of enrollments can be sorted by Grade, Calendar, Start Date or End Date.

See the core [Enrollments](#) article for information on necessary tool rights, available Ad hoc fields, and guidance on adding and printing Enrollment records.

General Enrollment Information

[Start Date](#) | [Local Enter Code](#) | [End Date](#) | [Local Leave Code](#)

Under General Enrollment Information, both the **Local Enter Code** and the **Local Leave Code** are unique to the state of Idaho. These fields are further described below. **All other fields in General Enrollment Information do not require unique, state-specific data.** However, many of these fields are required and data entry in these fields is necessary. For more information on these fields, see the [Enrollments](#) article.

Local Enter Code

Local Enter Code indicates the reason for beginning the student enrollment, whether entering the school or district or continuing on from another grade. When creating an enrollment for a student, students must have a Start Date and a Local Enter Code. An enrollment cannot be saved without an entry in these fields.

▶ [Click here to expand...](#)

End Date

Indicates the student's last day of enrollment in the selected calendar.

The Student Demographics Report lists this information as the School Exit Date and District Exit Date. Logic for the District Exit Date is as follows:

- When the student's enrollment active during the extract Date Range does not have an End Date and the extract End Date is on or after the last instructional day of the calendar, the calendar End Date reports.
- When the student's enrollment End Date falls during the extract Date Range and the extract End Date is on or after the last instructional day of the calendar, the Enrollment End Date reports.
- When the student's enrollment End Date falls during the extract Date Range and the extract End Date is before the last instructional day of the calendar and the Enrollment End Status is not 1A or 1B, the enrollment End Date reports.
- When the Enrollment End Status is 1A or 1B, no value reports.

Local Leave Code

The Local Leave Code indicates the circumstances under which the student exited from membership in the school.

The Student Demographics Report lists this information as the School Exit Type and District Exit Type.

Data entries made in the State Reporting Fields section of the Enrollments tool are unique to the state of Idaho and may directly affect the way students are reported to the state department of education.

Updates to State Reporting fields overwrite previously entered data. To preserve this historical information, create a new Enrollment record when changes are needed. Deleting an Enrollment record is NOT recommended.
