Classic View: IL State Reporting > Student Address Report

Search Terms: Student Address Report

The Student Address Report provides address information for Special Education students. Two report types are available:

- **Student Address Errors and Warnings**, which reports students who have no address on record and students who have multiple addresses in file.
- **Student Address Report**, which lists the address information.

The screenshot displays the 'Student Address Report' editor interface. At the top, there is a navigation breadcrumb: 'Reporting > IL State Reporting > Student Address Report'. Below this, a blue header bar contains the text 'Student Address Report'. A white box contains the following text: 'The IL Student Address Report will report Special Education student's address information. The errors and warnings report will pull students with no address and students with multiple addresses.'

The main configuration area is divided into several sections:

- Report Type:** A dropdown menu set to 'Student Address Errors and Warnings'.
- File Identifier:** A text input field containing '001'.
- Start Date:** A date picker set to '07/01/2020'.
- End Date:** A date picker set to '06/30/2021'.
- Report Protected Identities:** A checkbox that is checked.
- Format:** A dropdown menu set to 'Comma separated (CSV)(State Format)'.
- Ad Hoc Filter:** A dropdown menu.
- Include Private:** An unchecked checkbox.
- Strip Apostrophes:** An unchecked checkbox.
- Choose Grades:** A dropdown menu with 'All Grades' selected. Below it, a list shows 'Grade 1', 'Grade 2', 'Grade 3', and 'Grade 4'. A note below reads 'CTRL-click and SHIFT-click for multiple'.
- Select Calendars:** A section titled 'Which calendar(s) would you like to include in the report?' with three radio button options: 'active year' (selected), 'list by school', and 'list by year'.
- 20-21 School Year List:** A scrollable list of schools: '20-21 Abbott Elementary', '20-21 Baird Elementary', '20-21 Chowen Middle', '20-21 Drew Middle', '20-21 Ewing High', and '20-21 Fremont High'.

At the bottom of the form, there are two buttons: 'Generate Report' and 'Submit to Batch'.

Student Address Editor

Report Logic

Special education students who have a primary enrollment within the entered start and end dates on the report editor are included. If there is not a primary enrollment, but there is a partial or a special education enrollment, those records are reported, as long as the student also meets other

reporting requirements.

The student must have a locked IEP within the start and end dates of the selected calendar. If there is no IEP for the student, then logic looks to enrollment records within the start and end date entered on the editor to find records that have the Special Education checkbox marked.

The student must be an active member in a household between the entered start and end dates. The household address must meet the following:

- The Private checkbox must not be marked.
- The Mailing checkbox is marked.
- The address is the active address on the household as of the report date.

If multiple calendars (from different schools) are selected, and the student is enrolled in both calendars, the student only reports once. If multiple addresses exist, the address with the most recent start date is reported; if the start date is not populated on the address (no start date), that is considered the most recent address.

Addresses marked as Private are taken into consideration when the Include Private Address checkbox is marked.

State Exclude Logic

Students are not included when:

- The Enrollment record is marked as No Show or as State Exclude.
- The Calendar of enrollment is marked as State Exclude.
- The Grade Level of enrollment is marked as State Exclude.

Report Editor

The following fields are available for selection.

Field	Description
Report Type	<p>Selection determines which report generates. Options are the Student Address Errors and Warnings Report and the Student Address Report.</p> <p>It is recommended that the Errors and Warnings Report be generated first to review any missing address information.</p>
File Identifier	Indicates the number attached to the end of the file name and is used to differentiate the file from other files generated.

Field	Description
Start Date End Date	<p>Entered dates are used to return current address information (see the Report Logic section for details).</p> <p>The Start Date populates with the start date of the selected calendar. The End Date populates with the end date of the selected calendar. If multiple calendars are selected, the latest start and end dates are used.</p>
Report Protected Identities	When marked, student identity information (last name, first name, etc.) reports from the Protected Identity Information fields.
Format	Determines how the report generates. Use the Comma Separate (CSV) (State format) when submitting the report to the state. Use the HTML or Tab Delimited (TSV) options when reviewing data prior to state submission.
Ad hoc	Select a saved ad hoc filter to use when generating this report. Only those students included in the filter are returned on the report if they meet the reporting requirements.
Include Private Addresses	When marked, any address marked as private are taken into consideration for report selection criteria.
Strip Apostrophes	<p>When marked, the following marks are removed from student names and other reported data:</p> <ul style="list-style-type: none"> • Apostrophes ('), Commas (,), Periods (.) • Umlaut (Ö) • Tilde (Ñ) • Grave Accents (Ò), Acute Accents (Ó) • Circumflex (Ô) <p>When not marked, these marks are not removed.</p>
Choose Grades	Selected grade levels return only those students in those grade levels.
Calendar Selection	At least one calendar needs to be selected for the report to generate. Calendars can be chosen by Active Year , by School or by Year . If a calendar is selected in the Campus toolbar, that calendar is automatically selected.
Report Generation	The report can be generated immediately using the Generate Extract button. When there is a larger amount of data chosen (several calendars, large date range, etc.), use the Submit to Batch button, which allows the user to choose when the report is generated. See the Batch Queue article for more information.

Generate the Student Address Errors

and Warnings Report

1. Select **Student Address Errors and Warnings** as the **Report Type**.
2. Enter the **File Identifier** value.
3. Enter the **Start Date** and **End Date** required for the report.
4. If desired, mark the **Report Protected Identities** checkbox.
5. Select the desired **Format** for the report.
6. If desired, select an **Ad hoc Filter** from the dropdown list.
7. If desired, mark the **Include Private Address** checkbox.
8. If desired, mark the **Strip Apostrophes** checkbox.
9. Select the appropriate **Grade Levels**.
10. Select the desired **Calendar(s)**.
11. Click the **Generate Report** button to display the results of the report immediately; click the **Submit to Batch** button to determine when the report generates.
