The ISBE Demographics and Early Childhood Extract reports data on students 0-3 years of age receiving services.

ISBE Demographics and Early Childhood

Report Logic

The following report logic is enforced:

- All students in **State Grade Level 14: Preschool** who have an active primary enrollment within the Start and End Dates entered on the report editor are included:
    - Enrollment Start Date can be before or equal to the Start Date entered on the report editor. Enrollment End Date can be on or before the End Date entered on the report

editor, if the enrollment began before the entered start date.

- If the student does not have an active primary enrollment, but does has an active enrollment with a type of S or N, the student is included on the report.
- If the student has multiple enrollments, the primary enrollment reports.

The generated State file format is EC RCDT or District Name + _ + Date(MMDDYYYY)_File Identifier.txt (e.g., EC_500821040020000_06222005_001.txt or Chatham_06222005_001.txt).

Eligibility Determination Date

The Eligibility Determination Date reports from the student's locked evaluation. If the student has Early Intervention AND Referral by CFC = 01 marked on their enrollment record, the student's locked initial evaluation is referenced, as follows:

- For evaluations using the **Campus (IL) ESR Print** format, the evaluation date reports from the **Initial Evaluation** field.
- For evaluations using the **IL Evaluation 2011 (Historical) Print Format**, the evaluation date reports from the date of evaluation on the evaluation that is marked as Initial Eligibility.
- For evaluations using the **IL Evaluation 2013 Print Format**, the evaluation date reports from the **Initial Eligibility** field on that locked evaluation.
- For evaluations using the **IL Evaluation 2015 Print Format**, the evaluation date reports from the **Initial Eligibility** field on that locked evaluation.

If more than one locked evaluation meets the above requirements, the earliest date of evaluation reports.

If student does not have Early Intervention AND Referral by CFC marked or if student has no evaluation that meets the above requirements then no Eligibility Determination Date reports.

Gender Reporting

Schools can assign students a gender of M: Male, F: Female or N: Non-binary. This is done on the Identities and/or the Demographics tools. **While Illinois accepts a Non-binary gender for state reporting, federal reporting standards do not. Keep this in mind for any federal reporting pulled from Infinite Campus data.**

The Illinois State Board of Education provides the following definitions:

Term	State Definition
Sex	A label a person is given at birth, often based on a medical professional's interpretation of the newborn's physical characteristics. This is typically the sex reflected on one's original birth certificate. Sex is distinct from gender identity.
Male	A man or a boy.
Female	A woman or a girl.

Term	State Definition
Non-Binary	A term used to describe people whose gender identity is not exclusively male or female, including those who identify as a gender other than male or female, as more than one gender, or as no gender

State Reporting Extracts use the Legal Gender field included in the Protected Identity Information to report student identity information.

To properly record a Non-binary value for a student on the Identities tab:

1. Assign the **Sex** (previously labeled *Gender)* of **N: Non-binary** in the standard identify fields.
2. Assign the **Protected Identity Information Legal Gender** field of either M: Male or F: Female.
3. Save the record when finished.

Sex and Legal Gender Assignment

Report Editor

The following fields are available for selection.

Field	Description
Extract Type	Selection indicates what extract generated. For this extract, the **Demographics and Early Childhood** option should be selected.

Field	Description
Start Date, End Date	Entered dates determine the students who are returned in the report. Dates are entered in *mmddyy* format or can be chosen by using the calendar icon. Students who have an active primary enrollment within the Start and End Dates entered on the report editor are included. Enrollment Start Date can be before or equal to the Start Date entered on the report editor. Enrollment End Date can be on or before the End Date entered on the report editor, if the enrollment began before the entered start date.
File Identifier	A numeric field that notes the number of times the report has been generated. This field is used in the File Naming Convention of the extract to be used when submitting the extract in the State Format (EC + RCDT or District Name + __ + MMDDYYY_File Identifier).
Students without State IDs	When marked, the report returned students who do not have state IDs assigned.
Strip Apostrophes	When marked, the following marks are removed from student names and other reported data: • Apostrophes ('), Commas (,), Periods (.) • Umlaut (Ö) • Tilde (Ñ) • Grave Accents (Ò), Acute Accents (Ó) • Circumflex (Ô) When not marked, these marks are not removed.
Report Protected Identities	When marked, student identity information (last name, first name, etc.) reports from the Protected Identity Information fields.
Format	Determines how the report generates. Use the **State Format (Comma Delimited)** when submitting the report to the state. Use the **HTML** or **Tab Delimited** option when reviewing data prior to state submission.
Ad hoc	Select a saved ad hoc filter to use when generating this report. Only those students included in the filter will be returned on the report if they meet the reporting requirements.
Calendar Selection	At least one calendar needs to be selected for the report to generate. Calendars can be chosen by **Active Year**, by **School** or by **Year**. If a calendar is selected in the Campus toolbar, that calendar is automatically selected.

Field	Description
Report Generation	The report can be generated immediately using the **Generate Extract** button. When there is a larger amount of data chosen (several calendars, large date range, etc.), use the **Submit to Batch** button, which allows the user to choose when the report is generated. See the Batch Queue article for more information.

Generate the Report

1. Select **Demographics and Early Childhood** from the **Extract Type** dropdown list.
2. Enter the desired **Start Date** and **End Date** in *mmddyyyy* format or by clicking the calendar icon and selecting a date.
3. Enter the **File Identifier**.
4. Check the **Students w/o stateIDs** checkbox, if desired, to include students without assigned state IDs within the report.
5. If desired, mark the **Strip Apostrophes** checkbox.
6. If desired, mark the **Report Protected Identities** checkbox.
7. Select the **Format**. To review data prior to submission, use the HTML format. When submitting data to the state, use the State Format (Comma Delimited).
8. Select an **Ad hoc Filter** to use as the student set in the report.
9. Select which **Calendar(s)** to include within the report.
10. Select the **Generate Extract** button or use the **Submit to Batch** option. The report will appear in a separate window in the designated format.
