Report Logic

- Students appear in this extract who have active enrollment and active, locked IEPs on the snapshot date indicated by the extract editor.
- Only one record reports per student.
- The first enrollment the student has that is not end dated and is overlapped by an IEP reports.
- If a student has multiple enrollments with the same Start Date, the enrollment with the lowest enrollment ID reports.

Report Editor Details

The following table defines the available elements on the Special Education Report Editor.

Editor Field	Description
Snapshot Date	The date for which the Special Education data is collected. A date can be entered, but selecting a calendar will overwrite that date with a predetermined snapshot date.
Ad Hoc Filter	Selecting a filter limits the results to only those included in the filter.
Format	The format in which the report will generate. Options include HTML, Comma Separated and XML.
Calendars	The calendar(s) from which data is pulled for the report. Can be set to display only the active year's calendars, or be sorted by school or by year. Selecting a calendar will enter a default Snapshot Date in that field.
Generate Extract/ Submit to Batch	Users have the option of submitting a report request to the batch queue by clicking Submit to Batch instead of immediately generating the report by clicking Generate Extract . The batch process allows larger reports to generate in the background without disrupting the use of Campus. For more information about submitting a report to the batch queue, see the Batch Queue article.
