PATH: *IN State Reporting > RT*

This collection of real-time data is required under IC 20-19-3-9. The Department is required to obtain and maintain information in such a manner that permits any person with authorization to accurately determine where a student is enrolled and attending classes within two regular instructional days of the date of inquiry. Additionally, the Department uses enrollment, attendance, dropout, and mobility data for federal reporting purposes, adequate yearly progress, and calculation of the graduation cohort rate.

This tool will extract data to complete IN Real Time Report.

Extract Options

Start Date: [] End Date: []

Choose Grades: All Grades (dropdown), PW, PK, KG, 01, 02

Format: Comma Separated (State Format)

Ad Hoc Filter: []

Buttons: Generate Extract, Submit to Batch

Real Time Report Editor

Report Logic

- This report counts those students who are enrolled and expected to be in attendance at the school at any time during the weekly reporting period (Thursday - Wednesday).
- Students with active enrollments as of the start and end dates selected in the extract editor are reported.
- If a student has two enrollments (for example the student starts, ends, and then returns) only the most recent, active enrollment reports. If the student has two primary enrollments during the same date range, both enrollments report.
- Non-public (dual enrolled) students who are being served by a non-public or home school and

are also served part time by the school are not reported.

- Students who have a primary enrollment in a public school and ADM type of 6 are reported.
- Students do not report if enrollment, grade, or calendar is marked State Exclude.

Report Editor Details

The following table provides definitions of the data elements available on the Real Time Report editor.

Field	Description
Start Date	The earliest date from which data is pulled for the report.
End Date	The latest date from which data is pulled for the report.
Grades	The student grade levels to report report in the extract.
Format	The format in which the report generates. Options include HTML, CSV, and XML.
Ad hoc Filter	Select an Ad hoc Filter to limit the information reported to students within the selected filter.
Calendars	The calendar(s) from which data is pulled for the report. Can be set to display only the active year's calendars, or be sorted by school or by year.

Generating the Report

1. Enter a **Start Date** in *mmdyyyy* format or by clicking the calendar icon.
2. Enter an **End Date** in *mmdyyyy* format or by clicking the calendar icon.
3. Select which **Grades** should appear in the report.
4. Indicate the **Format** in which the report should be generated.
5. Select an **Ad hoc Filter** to further narrow results. (*optional*)
6. Select the **Calendar(s)** to be included in the report. Calendars can be sorted by active year, by school or by year.
7. Click **Generate Extract** to generate the report in the indicated format.

Users can submit the report request to the batch queue by clicking **Submit to Batch** instead of Generate Extract. This process allows larger reports to generate in the background, without disrupting the use of Campus. For more information about submitting a report to the batch queue, see the [Batch Queue](#) article.

Real Time Report Layout

Element Name	Description	Type, Format and Length	Campus Database	Campus Application
School Number	State assigned school ID	Numeric, 4 digits	School.number	System Administration > Resources > School > State School Number
Student Test Number	Official student test number (State ID)	Numeric, 9 digits	Person.stateID	Census > People > Demographics > Person Identifiers > State ID

Element Name	Description	Type, Format and Length	Campus Database	Campus Application
Grade Level	Grade level of student	Alphanumeric, 2 characters	Enrollment.gradeLevel	Student Information > General > Enrollments > Grade
Entry Date	The first day of student enrollment.	Datefield, 8 digits MMDDYYYY	Enrollment.startDate	Student Information > General > Enrollments > Start Date
Exit Date	The last day student attends school, whether last day of school year or withdrawal date.	Date field, 8 digits MMDDYYYY	Enrollment.endDate	Student Information > General > Enrollments > End Date
Exit Type	The end status of the student's enrollment. This field will report the End Status if the student has an Enrollment End Date. However, End Status of 33: Serving Expulsion or Out-of-School Suspension and 49: IEP Ownership Only will report regardless of whether an End Date exists. See the Indiana Enrollments article for a list of options.	Numeric, 2 digits	Enrollment.endStatus	Student Information > General > Enrollments > End Status

Element Name	Description	Type, Format and Length	Campus Database	Campus Application
Access School	The state-assigned school number of the school claiming access to IEP, ISTAR or Growth Model on this student with a disability.	Numeric, 4 digits	LearningPlan.servingSchoolName	Student Information > Special Ed > Documents > Education Plan > Enrollment Status
Accountable School	The state-assigned school number of the school ultimately accountable for the education of this student.	Numeric, 4 digits	Enrollment.residentSchool	Student Information > General > Enrollments > State Reporting Fields
Corporation Number of Legal Settlement	The state-assigned corporation number for corporation of legal settlement,	Numeric, 4 digits	EnrollmentIN.corporation	Student Information > General > Enrollments > State Reporting Fields
Socioeconomic Status	Indicates student meal status. This field first considers the provision information entered in the School History tab and then pulls from the student's enrollment record. Reports as 1 for all students if the Provision dropdown list is	Numeric, 1 digit	Calculated	System Administration > Resources > School > School History > Provision Information; FRAM > Eligibility > Eligibility

Element Name	Description populated, the Provision Type is NSLP or SBP and the school	Type, Format and Length	Campus Database	Campus Application
	<p>year being generated is equal to the Provision Base Year + 1 year and equal to or before the Provision End Date of the School History tab. Otherwise, if the school year being generated is equal to the Provision base year, reports as follows based on the student's individual eligibility record:</p> <ul style="list-style-type: none"> • 1: Student approved for free meals/milk • 2: Student approved for reduced price meals • 3: Student not approved for free or reduced meals/milk 			

Element Name	Description	Type, Format and Length	Campus Database	Campus Application
First Name	The student's first name. <i>This field is only included in the HTML format.</i>	Alphanumeric, N/A	Identity.firstName	Census > People > Demographics > Person Information > First Name
Last Name	The student's last name. <i>This field is only included in the HTML format.</i>	Alphanumeric, N/A	Identity.lastName	Census > People > Demographics > Person Information > Last Name
