

# School History (Indiana)

Last Modified on 10/22/2022 10:20 am CDT

**Classic View:** [System Administration](#) > [Resources](#) > [School](#)

**Search Term:** [School](#)

Options here are specific to Indiana districts. More information about School data is available in the [School](#) article.

School data is divided into two areas - **School Detail** and **School History**. School History records contain information related to a school that can be tracked historically.

In Indiana, if a Title 1 school has implemented a Schoolwide Program, the available programs can be recorded on School History. Options only display when **Schoolwide Program** is selected in the Title 1 dropdown list.

The [TI \(Title 1 Report\)](#) reports the services from School History for all students enrolled in the school.

# School Information ☆

Resources > Schools > School Information

School data is divided into two areas: School Detail and School History. School History records contain information related to a school that can be tracked historically. By creating a new School History, the new information is tracked as of a specific date while the previous values are preserved. To create a new School History record, select an existing School History and click the New School History button. This will create a new School History record based on the current information, which can be modified as needed and saved.
